But to exact revenge in Steelheart's world, David will need the Reckoners--a shadowy group of rebels bent on maintaining justice in a world of chaos. And it turns out that the Reckoners might just need David too.

David's fate has been tied to their villainy ever since that historic night. Steelheart killed his father. Firefight stole his heart. And now Regalia has turned Prof, his closest ally, into a dangerous enemy. David knew Prof's secret, and kept it even when Prof struggled to control the effects of his Epic powers. But facing Obliteration in Babbar was too much. Once the Reckoners' leader, Prof has now embraced his Epic destiny. He's disappeared into those murky shadows of menace Epics are infamous for the world over, and everyone knows there's no turning back. . . . But everyone is wrong. The #1 New York Times bestseller and sequel to Steelheart from Brandon Sanderson, the author of Oathbringer, coauthor of Robert Jordan's The Wheel of Time series, and creator of the internationally bestselling Mistborn trilogy, presents the second book in the Reckoners series: Firefight. And don't miss Calamity, the exciting conclusion to the Reckoners series! Newcago is free. They told David it was impossible, that even the Reckoners had never killed a High Epic. Yet Steelheart--invincible, immortal, unconquerable--is dead. And he died by David's hand. Eliminating Steelheart was supposed to make life simpler. Instead, it only made David realize he has questions. Big ones. And no one in Newcago can give him answers. Babylon Restored, the city formerly known as the borough of Manhattan, has possibilities, though. Ruled by the mysterious High Epic Regalia, Babylon Restored is flooded and miserable, but David is sure it's the path that will lead him to what he needs to find. Entering a city oppressed by a High Epic despot is risky, but David's willing to take the gamble. Because killing Steelheart left a hole in David's heart. A hole where his thirst for vengeance once lived. Somehow, he filled that hole with another Epic--Firefight. And now he will go on a quest darker and even more dangerous than the fight against Steelheart to find her, and to get his answers. Of the son of a High Duke of the interstellar Empire, much glory is expected. And expected. And still expected, despite endless proof that young Dennison Crestmar has no talent whatsoever for war. But the life Dennison is forced to live will have its surprising lessons to impart... Brandon Sanderson's novels include Elantris, the Mistborn series (Mistborn, The Well of Ascension, and The Hero of Ages), Warbreaker, and the several volumes of the Stormlight Archive beginning with 2010's The Way of Kings. Following the death of Robert Jordan in 2007, Jordan's wife and editor Harriet McDougal recruited Sanderson to finish Jordan's multi-volume fantasy series The Wheel of Time from Jordan's extensive drafts and notes. Published in 2009, The Gathering Storm, by Jordan and Sanderson, is the first of the three volumes that will conclude Jordan's epic. From the #1 New York Times bestselling author of the Reckoners series, the Mistborn trilogy, and the Stormlight Archive comes the third book in an epic series about a girl who will travel beyond the stars to save the world she loves from destruction. Spensa's life as a Defiant Defense Force pilot has been far from ordinary. She proved herself one of the best starfighters in the human enclave of Detritus and she saved her people from extermination at the hands of the Krell,the enigmatic alien species that has been holding them captive for decades. What's more, she traveled light-years from home as an undercover spy to infiltrate the Superiority, where she learned of the galaxy beyond her small, desolate planet home. Now, the Superiority(the governing galactic alliance bent on dominating all human life)has started a galaxy-wide war. And Spensa's seen the weapons they plan to use to end it: the Delvers. Ancient, mysterious alien forces that can wipe out entire planetary systems in an instant. Spensa knows that no matter how many pilots the DDF has, there is no defeating this predator. Except that Spensa is Cylonic. She faced down a Delver and saw something eerily familiar about it. And maybe, if she's able to figure out what she is, she could be more than just another pilot in this unfolding war. She could save the galaxy. The only way she can discover what she really is, though, is to leave behind all she knows and enter the Nowhere. A place from which few ever return. To have courage means facing fear. And this mission is terrifying. Praise for Skyward An Instant New York Times Bestseller A Kirkus Reviews Best Book of the Year "Startling revelations and stakes-raising implications . . . In 2005, Brandon Sanderson debuted with Elantris, an epic fantasy unlike any other then on the market. To celebrate its tenth anniversary, Tor is reissuing Elantris in a special edition, a fresh chance to introduce it to the myriad readers who have since become Sanderson fans. This new edition begins with a preface by author Dan Wells, the first person to read the completed novel, and a new afterword by Sanderson explaining how he came to write the book and its place in the Cosmere, the unified universe of all his Tor novels. Also included is an expanded version of the "Ars Arcanum" appendix, with more of the technical details of the book's magic that fans can never get enough of. Elantris was truly a milestone both for Sanderson and for the genre of epic fantasy. It deserves this special treatment, something Tor has done only once before, with Orson Scott Card's Ender's Game. Sanderson fans old and new will be excited to discover it.
