(PDF) Modelling Sustainable International Tourism Demand ...

Abstract. This paper studies the preferences of tourists visiting Sardinia (Italy), using a choice modelling approach. The focus is on the evaluation of specific 'demand-enhancing effects' which, according to economic theory, provide a basis for implementing sustainable tourism policies. Multinomial logit estimates reveal that strong negative effects result from the congestion of tourist attractions and the transformation of coastal environments, though tourists clearly gain utility from ...

Demand-Driven Sustainable Tourism? A Choice Modelling ...

This paper models the conditional mean and conditional variance of the logarithm of the monthly tourist arrival rate from the four leading tourism source countries to Australia, namely Japan, New Zealand, UK and USA, using three multivariate static or constant conditional correlation (CCC) volatility models, specifically the symmetric CCC-MGARCH model of (Rev. Econ. Stat. 72 (1990) 498), symmetric vector ARMA-GARCH model of (Econ.
