Molly Mormon is a term for the popular stereotype of a female member of The Church of Jesus Christ of Latter-day Saints. A Molly Mormon is thought to be the "perfect Mormon woman"—an attractive and chaste woman whose life revolves around the family and marriage and the social demands of Mormonism, such as bearing multiple children, and who embodies the cheery, chipper, and domesticated female in Latter-day Saint culture. Typically, a Molly Mormon would not dissent against her husband or ...

Molly Mormons Mormon Feminists And Moderates What Is ...

Mormon feminism is a feminist religious social movement concerned with the role of women within Mormonism. Mormon feminists commonly advocate for a more significant recognition of Heavenly Mother, the ordination of women, gender equality, and social justice grounded in Mormon theology and history. Mormon feminism advocates for more representation and presence of women as well as more leadership roles for women within the hierarchical structure of the church.

"I'm a Mormon Feminist" celebrates the diversity of all Mormon women. As daughters of God, we are unique individuals whose gifts are precious, and our voices matter. As children of God we seek to highlight the diversity of Mormon thought while striving to speak out against oppression, violence and other harms contrary to the gospel of Jesus Christ.

Authorama is a very simple site to use.

This handbook explores contemporary Mormonism within a global context. The authors provide a nuanced picture of a historically American religion in the throes of the same kinds of global change that virtually every conservative faith tradition faces today. They explain where and how the Church of Jesus Christ of Latter-day Saints has penetrated national and cultural boundaries in Latin America, Oceania, Europe, Asia, and Africa, as well as in North America beyond the borders of Mormon Utah. They also address numerous concerns within a multinational, multicultural church: What does it mean to be a Latter-day Saint in different world regions? What is the faith's appeal to converts in these places? What

are the peculiar problems for members who must manage Mormon identities in conjunction with their different national, cultural, and ethnic identities? How are leaders dealing with such issues as the status of women in a patriarchal church, the treatment of LGBTQ members, increasing disaffiliation of young people, and decreasing growth rates in North and Latin America while sustaining increasing growth in parts of Asia and Africa?

The Routledge Handbook of Mormonism and Gender is an outstanding reference source to this controversial subject area. Since its founding in 1830, the Church of Jesus Christ of Latter-day Saints has engaged gender in surprising ways. LDS practice of polygamy in the nineteenth century both fueled rhetoric of patriarchal rule as well as gave polygamous wives greater autonomy than their monogamous peers. The tensions over women's autonomy continued after polygamy was abandoned and defined much of the twentieth century. In the 1970s, 1990s, and 2010s, Mormon feminists came into direct confrontation with the male Mormon hierarchy. These public clashes produced some reforms, but fell short of accomplishing full equality. LGBT Mormons have a similar history. These movements are part of the larger story of how Mormonism has managed changing gender norms in a global context. Comprising over forty chapters by a team of international contributors the Handbook is divided into four parts: • Methodological issues • Historical approaches • Social scientific approaches • Theological approaches. These sections examine central issues, debates, and problems, including: agency, feminism, sexuality and sexual ethics, masculinity, queer studies, plural marriage, homosexuality, race, scripture, gender and the priesthood, the family, sexual violence, and identity. The Routledge Handbook of Mormonism and Gender is essential reading for students and researchers in religious studies, gender studies, and women's studies. The Handbook will also be very useful for those in related fields, such as cultural studies, politics, anthropology, and sociology.

Offers a glimpse into the cultural, social, and spiritual lives of modern Mormons.

This collection of essays explores how women from a variety of religious and cultural communities have contributed to the richly textured, pluralistic society of Canada. Focusing on women's religiosity, it examines the ways in which they have carried and conserved, and brought forward and transformed their cultures—old and new—in modern Canada. Each essay explores the ways in which the religiosities of women serve as locations for both the assertion and the refashioning of individual and communal identity in transcultural contexts. Three shared assumptions guide these essays: religion plays a dynamic role in the shaping and reshaping of social cultures; women are active participants in their transmission and their transformation; and a focus on women's activities within their religious traditions—often informal and unofficial—provides new perspectives on the intersection of religion, gender, and transnationalism. Since the first European migrations, Canada has been shaped by immigrant communities as they negotiated the tension between preserving their religious and cultural traditions and embracing the new opportunities in their adopted homeland. Viewing those interactions through the lens of women's religiosity, the essays in this collection model an innovative approach and provide new perspectives for students and researchers of Canadian Studies, Religious Studies, and Women's Studies.

Body Battlegrounds explores the rich and complex lives of society's body outlaws—individuals from myriad social locations who oppose hegemonic norms, customs, and conventions about the body. Original research chapters (based on textual analysis, qualitative interviews, and participant observation) along with personal narratives provide a window into the everyday lives of people rewriting the norms of embodiment in sites like schools, sporting events, and doctors' offices. Postsecular Feminisms explores the contested relationship between feminism and secularism through a series of case studies, featuring perspectives from the global North and South. It offers insights beyond those of the Abrahamic traditions, and includes multiple examples from South Asia. By decentering the European experience, Postsecular Feminisms shows how secularism and feminism have been constituted in North America, South Asia, and Anglophone West Africa. The book asks: can postsecular feminism offer a way to think about religion and gender so as to support women in all the variety of their lived experiences? The contributors show that postsecular feminism is a variety of feminism that is not necessarily either secularist or anti-secular. Rather it is feminism informed by a history of secularist bias within liberal feminism. Postsecular Feminisms explores both the potentials and pitfalls of postsecular feminisms, with some authors arguing that a contextually grounded praxis is possible, while others make a strong case against postsecular feminism as theory and practice.

From Sister Wives and Big Love to The Book of Mormon on Broadway, Mormons and Mormonism are pervasive throughout American popular media. In Latter-day Screens, Brenda R. Weber argues that mediated Mormonism contests and reconfigures collective notions of gender, sexuality, race, spirituality, capitalism, justice, and individualism. Focusing on Mormonism as both a meme and an analytic, Weber analyzes a wide range of contemporary media produced by those within and those outside of the mainstream and fundamentalist Mormon churches, from reality television to feature films, from blogs to YouTube videos, and from novels to memoirs by people who struggle to find agency and personhood in the shadow of the church's teachings. The broad archive of mediated Mormonism contains socially conservative values, often expressed through neoliberal strategies tied to egalitarianism, meritocracy, and self-actualization, but it also offers a passionate voice of contrast on behalf of plurality and inclusion. In this, mediated Mormonism and the conversations on social justice that it fosters create the pathway toward an inclusive, feminist-friendly, and queer-positive future for a broader culture that uses

Mormonism as a gauge to calibrate its own values.

This volume is a collection of all-new original essays covering everything from feminist to postcolonial readings of the play as well as source queries and analyses of historical performances of the play. *The Merchant of Venice* is a collection of seventeen new essays that explore the concepts of anti-Semitism, the work of Christopher Marlowe, the politics of commerce and making the play palatable to a modern audience. The characters, Portia and Shylock, are examined in fascinating detail. With in-depth analyses of the text, the play in performance and individual characters, this book promises to be the essential resource on the play for all Shakespeare enthusiasts.

Religious or spiritual beliefs underpin many controversies and conflicts in the contemporary world. Written by a range of scholarly contributors, this three-volume set provides contextual background information and detailed explanations of religious controversies across the globe. • Provides detailed coverage of a broad range of religious controversies and issues in a single resource • Offers analysis and context from authorities in their fields that goes beyond the often simplified presentations of religious controversies in modern media • Supplies insight into key religious issues that underpin international current events, enabling readers a greater understanding of the root causes of the acrimony and contention regarding seemingly secular issues
