Wild Pages Press journals and notebooks make amazing gifts perfect for any special occasion or for a bit of luxury for everyday use. These journals and notebooks are so versatile, they can be the perfect travel companion, or a stylish lecture pad for college or university, cool notebook for school, comprehensive notebook for work, or as a journal, the perfect family heirloom to be treasured for years to come. These quality journals and notebooks are made in the USA and competitively priced so they can be enjoyed by everyone.

Great Everest traveling gift and journaling idea for your Mountain Adventure. Perfect for anyone try to summit Mount Everest in Nepal.

Title: NEPAL Travel Journal (110 Pages, Blank, 6 x 9) Nepal lies sandwiched between the two domineering land masses and national powers that are India and China, yet it still manages to retain a culture that is distinctly its own. Nepal's national flag is nothing close to a quadrilateral. It, in fact, looks like two right angled triangles set one above the other, making this flag look like the Himalayan mountain range. These coinciding triangles also represent Hinduism and Buddhism, the two predominant religions which Nepalis follow. The flag is filled with red color that is the national color of the country and outlined by blue which represents peace. Faces of Sun and Moon completes the flag referring to the firm belief of Nepalis in Hindu Gods. We all know that the highs of visiting Nepal include the majestic towering peak of Mount Everest, which finally kisses the sky at 8,850 metres. But did you know that 8 out of 10 of the world's highest mountains are found within the relatively small 143,000 km² that Nepal occupies? - This is YOUR holiday of a lifetime or YOUR trip - Travel Journal - NEPAL - personal book of the traveler - This Journal will be part of your voyage and keep track of all the ups and downs, the things you saw and ate, the things you hated and loved. - Saving all these memories with every page will keep your journey alive for life Who is this book for? - for personal use - for friends of your journey - for family - for colleagues - for a gift for everyone About author: Hi, I'm Natalia. I am from Europe and currently live in Pompano Beach, Florida. I did not think that someday I would be able to live wherever I wanted but the favorable circumstances and courage made my life look very interesting. I am a lawyer by profession but I always wanted to publish my own books. I am very interested in traveling. I want to share my passion with you. Ask me questions. Thanks to this I will be able to improve my activities. Check my other notebooks and find the perfect one that will suit you, or would be ideal for that special gift for a loved one. My books carry a range of different notebooks and you will undoubtedly find the right one for you by checking through our different and exciting graphic options.

Nepal has very warm and welcoming people, great food and culture which you do not want to miss to write your whole experience with details on this journal. This journal also gives you the opportunity to plan your travel and make notes.

"If you're only going to read one Everest book this decade, make it *The Third Pole*. . . . A riveting adventure."—Outside Shivering, exhausted, gasping for oxygen, beyond doubt . . . A hundred-year mystery lured veteran climber Mark Synnott into an unlikely expedition up Mount Everest during the spring 2019 season that came to be known as "the Year Everest Broke." What he found was a gripping human story of impassioned characters from around the globe and a mountain that will consume your soul—and your life—if you let it. The mystery? On June 8, 1924, George Mallory and Sandy Irvine set out to stand on the roof of the world, where no one had stood before. They were last seen eight hundred feet shy of Everest's summit still "going strong" for the top. Could they have succeeded decades before Sir Edmund Hillary and Tenzing Norgay? Irvine is believed to have carried a Kodak camera with him to record their attempt, but it, along with his body, had never been found. Did the frozen film in that camera have a photograph of Mallory and Irvine on the summit before they disappeared into the clouds, never to be seen again? Kodak says the film might still be viable. . . . Mark Synnott made his own ascent up the infamous North Face along with his friend Renan Ozturk, a filmmaker using drones higher than any had previously flown. Readers witness first-hand how Synnott's quest led him from oxygen-deprivation training to archives and museums in England, to Kathmandu, the Tibetan high plateau, and up the North Face into a massive storm. The infamous traffic jams of climbers at the very summit immediately resulted in tragic deaths. Sherpas

revolted. Chinese officials turned on Synnott's team. An Indian woman miraculously crawled her way to frostbitten survival. Synnott himself went off the safety rope—one slip and no one would have been able to save him—committed to solving the mystery. Eleven climbers died on Everest that season, all of them mesmerized by an irresistible magic. The Third Pole is a rapidly accelerating ride to the limitless joy and horror of human obsession.

"An outstanding book." —The Wall Street Journal * "Gripping at every turn." —Outside * "A hell of a ride." —The Times (London) An extraordinary true story about one man's attempt to salve the wounds of war and save his own soul through an audacious adventure. In the 1930s, as official government expeditions set their sights on conquering Mount Everest, a little-known World War I veteran named Maurice Wilson conceives his own crazy, beautiful plan: he will fly a plane from England to Everest, crash-land on its lower slopes, then become the first person to reach its summit—completely alone. Wilson doesn't know how to climb. He barely knows how to fly. But he has the right plane, the right equipment, and a deep yearning to achieve his goal. In 1933, he takes off from London in a Gipsy Moth biplane with his course set for the highest mountain on earth. Wilson's eleven-month journey to Everest is wild: full of twists, turns, and daring. Eventually, in disguise, he sneaks into Tibet. His icy ordeal is just beginning. Wilson is one of the Great War's heroes, but also one of its victims. His hometown of Bradford in northern England is ripped apart by the fighting. So is his family. He barely survives the war himself. Wilson returns from the conflict unable to cope with the sadness that engulfs him. He begins a years-long trek around the world, burning through marriages and relationships, leaving damaged lives in his wake. When he finally returns to England, nearly a decade after he first left, he finds himself falling in love once more—this time with his best friend's wife—before depression overcomes him again. He emerges from his funk with a crystalline ambition. He wants to be the first man to stand on top of the world. Wilson believes that Everest can redeem him. This is the "rollicking" (The Economist) tale of an adventurer unlike any you have ever encountered: complex, driven, wry, haunted, and fully alive. He is a man written out of the history books—dismissed as an eccentric and gossiped about because of rumors of his transvestism. The Moth and the Mountain restores Maurice Wilson to his rightful place in the annals of Everest and tells an unforgettable story about the power of the human spirit in the face of adversity.

ABOUT THE BOOK So you've decided to take the plunge - and quite a plunge, at that. You have decided to spend weeks trekking through the Khumbu region of Nepal, to stand at the foot of Mount Everest. And adding to the challenge, you have decided to do it with your significant other. As the two of you discussed taking on such an adventure, you were really excited. What a perfect way to bond as a couple and see some really cool stuff! But when the decision was officially made, you began to feel a little twinge of something. What was it: fear? Remorse? Guilt over the fear and remorse? Or perhaps it is just plain old dread. You and your boyfriend/girlfriend have never gone on a trip this long before. You have never even been alone for that long before. There have always been other things to distract you - work, friends, family, kickball, etc. And talk about the stress. You are both type-A control freaks from the city. And you expect to survive planning a trip together, let alone actually trekking over 100 miles for a month together? This is surely insanity! Or is it? MEET THE AUTHOR Lacey Kohlmoos is a writer, traveler and lover of the arts. After graduating from the University of Virginia with a BA in Drama & the Studies of Women and Gender, the only thing she knew for sure was that she wanted to travel. So, she embarked on a 10-12 month round-the-world trip, then traveled to Costa Rica where she spent one year teaching elementary school English in a small mountain town. Throughout her two years of travels, she's always kept a blog. EXCERPT FROM THE BOOK As for getting back in one piece physically, the key to an injury-free trek to Mount Everest is packing the right equipment and training your body for the physical stress of walking so long and far with weight on your back. Let me first say that my boyfriend and I did not train enough before going on the trek. The first day on the trail was probably one of the least demanding in distance and elevation gain, but it was one of the most painful. We did not injure ourselves only because we walked slower than any of the other trekkers that we encountered on the trail. You can take our approach - that you'll get into shape as you do the trek - but I recommend getting as many multi-day hikes in as you can before attempting the trek. As Kraig Becker writes on his blog Gadling, ...by getting yourself physically ready for the trek, you'll save yourself a lot of grief on the trail. Start training at least a couple months before your departure date so that you can gradually work up to longer hikes at higher altitudes with more weight on your back. This is also important for breaking in hiking boots if you decide to buy new ones... Buy a copy to keep reading! CHAPTER OUTLINE How to Climb Mount Everest with Your Boyfriend or Girlfriend, Without Dying or Killing Each Other + Introduction + The Preparation + The Execution + Common Mistakes to Avoid + ...and much more

A dramatic account of the deadly avalanche on Everest—and a return to reach the summit. On April 25, 2015, Jim Davidson was climbing Mount Everest when a 7.8-magnitude earthquake released avalanches all around him and his team, destroying their only escape route and trapping them at nearly 20,000 feet. It was the largest earthquake in Nepal in eighty-one years and killed nearly 8,900 people. That day also became the deadliest in the history of Everest, with eighteen people losing their lives on the mountain. After spending two unsettling days stranded on Everest, Davidson's team was rescued by helicopter. The experience left him shaken, and despite his thirty-three years of climbing and serving as an expedition leader, he wasn't sure that he would ever go back. But in the face of risk and uncertainty, he returned in 2017 and finally achieved his dream of reaching the summit. Suspenseful and engrossing, The Next Everest portrays the experience of living through the biggest disaster to ever hit the mountain. Davidson's background in geology and environmental science makes him uniquely qualified to explain why the seismic threats lurking beneath Nepal are even greater today. But this story

is not about "conquering" the world's highest peak. Instead, it reveals how embracing change, challenge, and uncertainty prepares anyone to face their next "Everest" in life.

"In 1967, two young Peace Corps volunteers working in southern India attempt a trek to Everest Base Camp in December with sneakers, borrowed backpacks, a rented tent, no maps and only \$200 apiece for food, travel, lodging and Sherpa guides"--

Perched impossibly on a ridge overlooking a 10,000-foot drop into Tibet, Sano Babu Sunuwar and Lakpa Tsheri Sherpa wait. Heel to toe, connected at the waist by a pair of carabineers that's connected to nothing else, they stare down the North Face of Mount Everest, a red and white nylon tandem paragliding wing fluttering behind them. They know that jumping off the top of the world marks only the beginning of a longer, more audacious journey. And they know that the two-mile ride down Everest will be the easiest part. If the jump doesn't kill them. In April 2011 the two unsponsored Nepalis set out on an unprecedented expedition to climb Everest, paraglide from its peak, and paddle nearly 400 miles to the ocean. Little problems wouldn't stop them. Like the fact that Babu had no technical climbing experience. And that Lakpa had never been kayaking—or swimming. But after summiting, surviving their flight off the world's tallest mountain, and being arrested, robbed, and nearly drowned—repeatedly—the two friends discovered their adventure had only just begun.
