Nikon recommend using Nikon branded Speedlights with Nikon digital cameras and does not undertake testing of flash units and accessories from other manufacturers. Nikon cameras comply with ISO10330 which is a international standard for cameras when used with flash units, failure to comply with this standard could cause damage to your camera and may void your Nikon warranty.

Nikon Speedlight Compatibility Chart

Buy any Nikon flash (Speedlight) made in the last 15 years with a TTL setting and it will work perfectly with any modern or old Nikon film camera. The only real difference between flashes is how far away you can get and still have enough light. Honest, all the other features are meaningless for practical photography.
