The current volume, featuring 28 contributions from cutting-edge researchers, emphasizes uses, purposes, origins, and consequences of nonverbal communication in the lives of individuals, dyads, and groups - in other words, the behaviour of human beings. As such, the volume as a whole is not just about communication systems per se nor the impact on humans of the physical environment, whether built or natural. Instead, the volume focuses on humans engaging in nonverbal communication and the communicative and psychological aspects of this behaviour. Nonverbal behaviour is an inclusive category and includes all emitted nonverbal behaviour that may be subject to interpretation by others, whether the behaviour is intentionally produced or

success in many walks of life has stimulated considerable interest in this area, both from academic researchers, and from practitioners whose day-to-day work is so dependent on effective social skills. Covering topics such as non-verbal behaviour, listening, negotiation and persuasion, the book situates communication in a range of different contexts, from interacting in groups to the counselling interview. Based on the core tenet that interpersonal communication can be conceptualised as a form of skilled activity, and including new chapters on cognitive behavioural therapy and coaching and mentoring, this new edition also places communication in context with advances in digital technology. The Handbook of Communication Skills represents the most significant single contribution to
