Nurses are required to lead and manage care as soon as they have completed their training. However, the development of leadership skills and the associated learning can be challenging, especially for less experienced nurses and those at the beginning of their careers. This article examines the importance of effective leadership for nurses, patients and healthcare organisations, and outlines some of the theories of leadership such as transformational leadership.

The project goal was to recruit young nurses early in their careers into a Master's degree program in Nursing Administration and Financial Leadership before they accept formal leadership roles. This is a paradigm shift from the historical pattern where nurse leaders have often "fallen into their positions" without leadership education ( Sherman, Bishop, Eggenberger & Karden, 2007 ).
