India-based nutraceutical and cosmeceutical company Pure Nutrition has launched a range of cosmetic products to capitalise on the potential of the country's US\$ billion-dollar beauty market. The new range consists of three skin care products and one hair care product made from natural ingredients, said the company.

Pure Nutrition launches cosmetics range to tap into India...

Cosmetics and beauty products may seem like a whole different ball game, but there are some leaders in the industry proving that wrong. With a strong marketing and PR strategy – including creative collaborations with influencers – consumers are just as likely to shop for beauty products online and conversely, digital media can be used to attract them to stores .

Digital Marketing Trends Overtaking The Beauty Industry...

If we look at the med-tech industry, there is a natural transfer of principles from home med-tech into beauty. At the heart of it, well designed home use med-tech devices work alongside drug formulations to holistically meet a common objective of preventing, managing or improving patient health.
