A properly executed fast trill is an amazing effect but like all fast playing you must learn to play it beautifully slowly then gradually increase its speed but maintaining its quality. To this end, there is little merit in moving your fingers around, for example the first finger of your left hand on the 1st valve whilst the first finger of your right hand trills on the 3rd valve.

sound on the oboe, the player must use a steady consistent airstream. Think of your windpipe like a hose; the air needs to flow straight through it with constant pressure and without interruption until it hits the reed.

The Oboe for Dummies

First and foremost, in choosing an oboe, the musician's age and skill level should be the very first factor that needs to be addressed. What kind of use the instrument will be put through is also important. If the oboe is for a school, consulting with the band teacher is a good idea.

Oboe Buying Guide & Comparison Chart | Woodwind ...

The oboe can produce notes up to C7, though standard orchestral repertoire requires up to only A6, and most frequently up to only F6. Contemporary band or wind ensemble music, however, increasingly asks for high and very technical playing, necessitating the need to know these notes as younger players.

Extended Techniques – Oboehelp

area of an oboe or English horn is the area between the trill tone holes in the upper joint. Often a tiny crack can develop almost unseen, which can seriously hamper an instrument 's playing ability. A good test for air tightness is to cover all the tone holes in the top joint and insert a rubber stopper in the bottom of the upper joint. Try ...
