One of the important innovations of the " Is Architecture Art? " project is to consider the popularity of exhibiting architecture as art, and the rapid increase in interdisciplinary practice between architecture and the visual arts, as part of a larger cultural development in which architecture has also become an exemplar of a " creative industry, " a form of cultural production that is at home in the commercial economy and thus a rebuke to the old elitist high arts that rely on public subsidy.

Arts & Architecture

Architecture, the art and technique of designing and building, as distinguished from the skills associated with construction. The practice of architecture is employed to fulfill both practical and expressive requirements, and thus it serves both utilitarian and aesthetic ends. Although these two ends may be distinguished, they cannot be separated, and the relative weight given to each can vary widely.
