ROLEX DAY-DATE,  
THE “PRESIDENT’S  
WATCH” The Rolex  
Day-Date is the first  
wristwatch which  
indicates the date and  
the day of the week. In  
1956 Rolex presents one  
of its most successful  
and most popular  
watches ever: the Day-

Date,. This model is one of the world's most famous Rolex watches; classic, beautiful, functional, useful and elegant. In 2008 a new chapter of this watch, the Day-date II (ø 41 mm) and in 2015 the new Day-Date 40.

Known as “President’s Watch”, this Rolex Day-Date has characterized and influenced the

history of horology with developments and innovations during the years. With high definition unreleased images, technical details, dials variants, history and updated price of every model, this book analyses every reference from 1956 until today. This is how the “Datejust”, which clearly indicates the date on the dial in a small aperture with a Cyclops lens which enlarges it so as to make it easier to read, was born. The next stage was the launch of the “Day-Date”, a perfected model which

also indicates, with letters, the days of the week. The day and the date automatically change every evening at midnight. » These are the words of Roger Federer, a living tennis legend, about his Day-Date II: “The reason I like my Day-Date so much is because it is a legendary watch, elegant but with a
