Supplement to 3d ed. called Selected characteristics of occupations (physical demands, working conditions, training time) issued by Bureau of Employment Security.

As author Philip Meyer sat in a college class listening to a professor lecture about systematic tools for measuring things like trust in government, a thought struck him: a journalist could do this! He thought about the newsroom conversations he'd had about the possibility of reporting on some interesting social phenomena. The group always ended with a shrug and a lament that there was no way to measure it—but he began to wonder. It was an epiphany for Meyer, who went on to report on the 1967 racial riots in Detroit and write the groundbreaking book Precision Journalism. While others were arguing that reporters should not use scientific methods to make conclusions of their own, Meyer was using computers and statistical software to elevate the standards of traditional journalism. At age fifty, he switched gears and entered the world of academe, where he continues to stir the pot. In Paper Route, he recalls two interconnected careers and examines how journalism, quantitative methods, and original thinking led him to live the remarkable life that he's still enjoying.

This book attempts to answer the oft asked question of immature boys, "What on earth were you thinking?" Biographical in nature, with examples of my own childhood and that of some of my former students, it is my sincere hope that parents and educators will finally have possible answers to that query.

Bob Brand was being raised by drunken, brutal parents until he was fifteen years old. He had a paper route, like many young boys. One night, he refused to give his father the money he collected to pay his paper bill and was beaten badly by his father. He escaped from the home and went to see an elderly doctor on his route to get help. Dr. Ted Woods sewed him up and called the police. His father was arrested and given a year in jail and was allowed three days to get his affairs in order. He and his wife fled, and Dr. Woods gained custody of Bob in a hearing. Dr. Woods hired Julia Finney to be his housekeeper. Julia had a daughter, Martha, who was born when Julia was fifteen years old. Both Julia and Martha suffered feelings of guilt and shame due to Julia's background. Bob's presence in his new family somehow seemed to knit the four people into a happy, loving family and cured the feelings of shame, guilt, and inferiority held by both Julia and Martha. As Dr. Woods remarked, Bob provided the glue to make them a happy, loving family. He also said Bob had gifts he was unaware he had. Whenever he was near, held, or kissed a person, they experienced great warmth and love. He had the same effect on animals, which had no fear of him and wanted to get close to him, much to the amazement of Dr. Woods and his family and bystanders. Martha fell in love with Bob, as did Julia, but Julia knew the difference in the ages between Bob and her made it impossible for them to ever marry. Bob fell in love with both Julia and Martha. Martha fell deeply in love with Bob and constantly tried to seduce him, believing when he did, he would marry her, even as young as they were. This book is about the life of Bob and how he reacted when he lost first his wife, Martha; his second wife, Julia; and finally his housekeeper, Peggy. He, finally, with the help of Peggy's daughter, Cynthia, discovers his hidden gift.
