Run away to the Metropolitan Museum of Art with E. L. Konigsburg ' s beloved classic and Newbery Medal-winning novel From the Mixed-Up Files of Mrs. Basil E. Frankweiler—now available in a deluxe keepsake edition! Claudia knew that she could never pull off the old-fashioned kind of running away...so she decided to run not from somewhere but to somewhere. That was how Claudia and her brother, Jamie, ended up living in the Metropolitan Museum of Art—and right in the middle of a mystery that made headlines. Celebrate the legacy of the Newbery Medal – winning classic with this special edition.

'Angela's Ashes' is the memoir of retired schoolteacher Frank McCourt. He grew up in New York in the 1930s and in Ireland in the 1940s, in a large family, with an alcoholic father. It is a story of courage and survival against apparently overwhelming odds.

imaginative tale of a girl who falls down a rabbit-hole into a bizarre world of eccentric and unusual creatures. Lewis Carroll's prominent example of the genre of "literary nonsense" has endured in popularity with its clever way of playing with logic and a narrative structure that has influence generations of fiction writing.

Bridging the fields of conservation, art history, and museum curating, this volume contains the principal papers from an international symposium titled "Historical Painting Techniques, Materials, and Studio Practice" at the University of Leiden in Amsterdam, Netherlands, from June 26 to 29, 1995. The symposium—designed for art historians, conservators, conservation scientists, and museum curators worldwide—was organized by the Department of Art History at the University of Leiden and the Art History Department of the Central Research Laboratory for Objects of Art and Science in Amsterdam. Twenty-five contributors representing museums and conservation institutions throughout the world provide recent research on historical painting techniques, including wall painting and polychrome sculpture. Topics cover the latest art historical research and scientific analyses of original techniques and materials, as well as historical sources, such as medieval treatises and descriptions of painting techniques in historical literature. Chapters include the painting methods of Rembrandt and Vermeer, Dutch 17th-century landscape painting, wall paintings in English churches, Chinese paintings on paper and canvas, and Tibetan thangkas. Color plates and black-and-white photographs illustrate works from the Middle Ages to the 20th century.

From the bestselling author of the acclaimed *Chaos and Genius* comes a thoughtful and provocative exploration of the big ideas of the modern era: Information, communication, and information theory. Acclaimed science writer James Gleick presents an eye-opening vision of how our relationship to information has transformed the very nature of human consciousness. A fascinating intellectual journey through the history of communication and information, from the language of Africa's talking drums to the invention of written alphabets; from the electronic transmission of code to the origins of information theory, into the new information age and the current deluge of news, tweets, images, and blogs. Along the way, Gleick profiles key innovators, including Charles Babbage, Ada Lovelace, Samuel Morse, and Claude Shannon, and reveals how our understanding of information is transforming not only how we look at the world, but how we live. *Music Cultures in the United States* is a basic textbook for an Introduction to American Music course. Taking a new, fresh approach to the study of American music, it is divided into three parts. In the first part, historical, social, and cultural issues are discussed, including how music history is studied; issues of musical and social identity; and institutions and processes affecting music in the U.S. The heart of the book is devoted to American musical cultures: American Indian; European;

African American; Latin American; and Asian American. Each cultural section has a basic introductory article, followed by case studies of specific musical cultures. Finally, global musics are addressed, including Classical Musics and Popular Musics, as they have been performed in the U.S.. Each article is written by an expert in the field, offering in-depth, knowledgeable, yet accessible writing for the student. The accompanying CD offers musical examples tied to each article. Pedagogic material includes chapter overviews, questions for study, and a chronology of key musical events in American music and definitions in the margins.

From Irving Berlin to Cy Coleman, from “ Alexander ’ s Ragtime Band ” to “ Big Spender, ” from Tin Pan Alley to the MGM soundstages, the Golden Age of the American song embodied all that was cool, sexy, and sophisticated in popular culture. For four glittering decades, geniuses like Jerome Kern, George Gershwin, Cole Porter, and Harold Arlen ran their fingers over piano keys, enticing unforgettable melodies out of thin air. Critically acclaimed writer Wilfrid Sheed uncovered the legends, mingled with the greats, and gossiped with the insiders. Now he ’ s crafted a dazzling, authoritative history of the era that “ tripled the world ’ s total supply of singable tunes. ” It began when immigrants in New York ’ s Lower East Side heard black jazz and blues – and it surged into an artistic torrent nothing short of miraculous. Broke but eager, Izzy Baline transformed himself into Irving Berlin, married an heiress, and embarked on a string of hits from “ Always ” to “ Cheek

to Cheek.” Berlin’s spiritual godson George Gershwin, in his brief but incandescent career, straddled Tin Pan Alley and Carnegie Hall, charming everyone in his orbit. Possessed of a world-class ego, Gershwin was also generous, exciting, and utterly original. Half a century later, Gershwin love songs like “Someone to Watch Over Me,” “The Man I Love,” and “Love Is Here to Stay” are as tender and moving as ever. Sheed also illuminates the unique gifts of the great jazz songsters Hoagy Carmichael and Duke Ellington, conjuring up the circumstances of their creativity and bringing back the thrill of what it was like to hear “Georgia on My Mind” or “Mood Indigo” for the first time. The Golden Age of song sparked creative breakthroughs in both Broadway musicals and splashy Hollywood extravaganzas. Sheed vividly recounts how Cole Porter, Richard Rodgers, Jerome Kern, and Johnny Mercer spread the melodic wealth to stage and screen. Popular music was, writes Sheed, “far and away our greatest contribution to the world’s art supply in the so-called American Century.” Sheed hung out with some of the great artists while they were still writing – and better than anyone, he knows great music, its shimmer, bite, and exuberance. Sparkling with wit, insight, and the grace notes of wonderful songs, *The House That George Built* is a heartfelt, intensely personal portrait of an unforgettable era. A delightfully charming, funny, and most illuminating portrait of songwriters and the Golden Age of American Popular Song. Mr. Sheed’s carefully chosen depictions and anecdotes recapture that amazingly creative period, a moment in time in which I was so fortunate to be surrounded by all that magic.”
