In a previous article (now deprecated), I discussed how to upgrade — at no cost for licensed users — Nuance's PaperPort Version 11 (hereafter, PP11) and PaperPort Version 12 (PP12) to the latest "point" releases, namely, 11.2 and 12.1. At the time of that article's publication, PP11 and PP12 were the two latest versions. Now the latest version is PP14 (yes, Nuance was superstitious and ...

Nuance PaperPort 12 - Should I Remove It?

PaperPort allows scanned documents to be separated into individual pages, and reassembled into new PDF files. Originally, PaperPort created files in .MAX file format natively, but later versions use PDF. Versions of PaperPort from V14 cannot edit .MAX files, but they can be converted to PDF, which can be edited. PaperPort only supports Windows and iOS. An open-source program called Paperman ...

As future generation information technology (FGIT) becomes

Online Library Paperport 12 Support

specialized and fragmented, it is easy to lose sight that many topics in FGIT have common threads and, because of this, advances in one discipline may be transmitted to others. Presentation of recent results obtained in different disciplines encourages this interchange for the advancement of FGIT as a whole. Of particular interest are hybrid solutions that combine ideas taken from multiple disciplines in order to achieve something more significant than the sum of the individual parts. Through such hybrid philosophy, a new principle can be discovered, which has the propensity to propagate throughout multifaceted disciplines. FGIT 2009 was the first mega-conference that attempted to follow the above idea of hybridization in FGIT in a form of multiple events related to particular disciplines of IT, conducted by separate scientific committees, but coordinated in order to expose the most important contributions. It included the following international conferences: Advanced Software Engineering and Its Applications (ASEA), Bio-Science and Bio-Technology (BSBT), Control and Automation (CA), Database Theory and Application (DTA), Disaster Recovery and Business Continuity (DRBC; published independently), Future Generation Communication and Networking (FGCN) that was combined with Advanced Communication and Networking (ACN), Grid and Distributed Computing (GDC), Multimedia, Computer Graphics and Broadcasting (MulGraB), Security Technology (SecTech), Signal Processing, Image Processing and Pattern Recognition (SIP), and Cloud and e-Service, Science and Technology (UNESST).
