BPP Learning Media's Study Text for TOPCIMA will help you pass CIMA's Test of Professional Competence in Management Accounting case study exam. In preparing the Text we have taken note of past papers, questions put to the examiners, the assessment methodology and previous case study exams. The key to the case is to prepare and to practise. Prepare by working through this Study Text before CIMA issues the pre-seen data. Later, practise with the BPP Learning Media TOPCIMA Toolkit that is written around the real pre-seen data. The Toolkit contains analyses and exercises to get you thinking, as well as a number of 'mock' unseens to get you ready for the real thing

Teaching and Learning Foreign Languages provides a comprehensive history of language teaching and learning in the UK from its earliest beginnings to the year 2000. McLelland offers the first history of the social context of foreign language education in Britain, as well as an overview of changing approaches, methods and techniques in language teaching and learning. The important impact of classroom-external factors on developments in language teaching and learning is also taken into account, particularly regarding the policies and public examination requirements of the 20th century. Beginning with a chronological overview of language teaching and learning in Britain, McLelland explores which languages were learned when, why and by whom, before examining the social history of language teaching and learning in greater detail, addressing topics including the status that language learning and teaching have held in society. McLelland also provides a history of how languages have been taught, contrasting historical developments with current orthodoxies of language teaching. Experiences outside school are discussed with reference to examples from adult education, teach-yourself courses and military language learning. Providing an accessible, authoritative history of language education in Britain, Teaching and Learning Foreign Languages will appeal to academics and postgraduate students engaged in the history of education and language learning across the world. The book will also be of interest to teacher educators, trainee and practising teachers, policymakers and curriculum developers.
