At the end of March, we gave readers the chance to ask Luca Turin and Tania Sanchez questions about perfume and their then-upcoming book, Perfumes: The Guide. Here are their answers. Note that I threw in two questions of my own at the end, and those of you who read all the way to the last answer, please join me in a moment of silence.

'I've long wished perfumery to be taken seriously as an art, and for scent critics to be as fierce as opera critics, and for the wearers of certain "fragrances" to be hissed in public, while others are cheered. This year has brought Perfumes: The Guide by Luca Turin and Tania Sanchez, which I breathed in, rather than read, in one delighted gulp.' Hilary Mantel, Guardian
Perfumes: The Guide is the culmination of Turin's lifelong obsession and rare scientific flair and Sanchez's stylish and devoted blogging about every scent that she's ever loved and loathed. Together they make a fine and utterly persuasive argument for the unrecognised craft of perfume-making. Perfume writing has certainly never been this honest, compelling or downright entertaining.

The first book of its kind: a definitive guide to the world of perfume Luca Turin and Tania Sanchez are experts in the world of scent. Turin, a renowned scientist, and Sanchez, a longtime perfume critic, have spent years sniffing the world's most elegant and beautiful—as well as some truly terrible—perfumes. In Perfumes: The Guide, they combine their talents and experience to review more than twelve hundred fragrances, separating the divine from the good from the monumentally awful. Through witty, irreverent, and illuminating prose, the reviews in Perfumes not only provide consumers with an essential guide to shopping for fragrance, but also make for a unique reading experience. Perfumes features introductions to women's and men's fragrances and an informative "frequently asked questions" section including: • What is the difference between eau de toilette and perfume? • How long can I keep perfume before it goes bad? • What's better: splash bottles or spray atomizers? • What are perfumes made of? • Should I change my fragrance each season? Perfumes: The Guide is an authoritative, one-of-a-kind book that will do for fragrance what Robert Parker's books have done for wine. Beautifully designed and elegantly illustrated, this book will be the perfect gift for collectors and anyone who's ever had an interest in the fascinating subject of perfume. Read Luca Turin and Tania Sanchez's posts on the Penguin Blog.

An olfactory scientist and a perfume critic review more than 1,200 fragrances to identify preferred and less-recommended varieties, in a guide that introduces women's and men's fragrances and discusses the history and chemistry of perfumes.

For as long as anyone can remember, a man named Luca Turin has had an uncanny relationship with smells. He has been compared to the hero of Patrick Süskind's novel Perfume, but his story is in fact stranger, because it is true. It concerns how he made use of his powerful gifts to solve one of the last great mysteries of the human body: how our noses work. Luca Turin can distinguish the components of just about any smell, from the world's most refined perfumes to the air in a subway car on the Paris metro. A distinguished scientist, he once worked in an unrelated field, though he made a hobby of collecting fragrances. But when, as a lark, he published a collection of his reviews of the world's perfumes, the book hit the small, insular business of perfume makers like a thunderclap. Who is this man Luca Turin, they demanded, and how does he know so much? The closed community of scent creation opened up to Luca Turin, and he discovered a fact that astonished him: no one in this world knew how smell worked. Billions and billions of dollars were spent creating scents in a manner amounting to glorified trial and error. The solution to the mystery of every other human sense has led to the Nobel Prize, if not vast riches. Why, Luca Turin thought, should smell be any different? So he gave his life to this great puzzle. And in the

end, incredibly, it would seem that he solved it. But when enormously powerful interests are threatened and great reputations are at stake, Luca Turin learned, nothing is quite what it seems. Acclaimed writer Chandler Burr has spent four years chronicling Luca Turin's quest to unravel the mystery of how our sense of smell works. What has emerged is an enthralling, magical book that changes the way we think about that area between our mouth and our eyes, and its profound, secret hold on our lives.

One man's passion for perfume leads him to explore one of the most intriguing scientific mysteries: What makes one molecule smell of garlic while another smells of rose? In this witty, engrossing, and wildly original volume, author Luca Turin explores the two competing theories of smell. Is scent determined by molecular shape or molecular vibrations? Turin describes in fascinating detail the science, the evidence, and the often contentious debate—from the beginnings of organic chemistry to the present day—and pays homage to the scientists who went before. With its uniquely accessible and captivating approach to science via art, *The Secret of Scent* will appeal to anyone who has ever wondered about the most mysterious of the five senses.

The Perfect Scent is the thrilling inside story of the global perfume industry, told through two creators working on two very different scents.

"Turin confirms his right to be classed alongside Proust or Patrick Suskind as a poet of smell." -Lara Feigel, Observer
