A compact, comprehensive, and very silly field guide featuring more than 200 of the rudest birds on earth. *Effin' Birds* is the most eagerly anticipated new volume in the grand and noble profession of nature writing and bird identification. Sitting proudly alongside Sibley, Kaufman, and Peterson, this book contains more than 150 pages crammed full of classic, monochrome plumage art paired with the delightful but dirty aphorisms (think "I'm going to need more booze to deal with this week") that made the *Effin' Birds* Twitter feed a household name. Also included in its full, Technicolor glory is John James Audubon's most beautiful work matched with modern life advice. Including never-before-seen birds, insults, and field notes, this guide is a must-have for any *effin'* fan or birder.

During his lifetime, artist Charley Harper (American, 1922-2007) painted lots and lots of birds. He was raised on a farm in West Virginia, & as a kid he explored the woods and fields near his home, sketching the critters he saw. When he grew up, he developed a unique artistic style. Instead of recording every small detail of his wild subjects, he simplified each animal to

its most basic elements. Rather than drawing every feather on a bird, for example, he just drew bold, colorful shapes for the wings, body, beak, and tail. And he always highlighted each animals most familiar features the blur of a hummingbirds beating wings, for example, or the bright red crest of a cardinal. Fifty different birds drawn by Charley Harper are included in this sticker book. Charley wanted his art to show us the amazing variety in nature & how all living things are dependent on each other. Maybe these stickers will inspire you to learn more about the birds that Charley loved so much. Happy stickering!
