Step 1, Make sure that your printer is connected and turned on. If your printer connects over Wi-Fi, this will mean making sure that you're on the same Internet network as your printer; otherwise, you'll need to plug your printer's USB cable into your computer. Check your printer's manual to confirm how to set it up if you haven't already done so. Step 2, Open Start . Click the Windows logo in the bottom-left corner of the screen. Step 3, Open File Explorer . Click the folder-shaped icon in ...

To manually print on both sides of the paper, do one of the following: Print each page separately, and then copy the pages on a copier that supports double-sided copying. Display the side of the publication that you want to print first. In the Print dialog box, under Page range, click Current page. When the first side is printed, flip the sheet over, and then reinsert it into the printer and print the other side.
