Step 1, Set the parking brake and disconnect the negative cable from your car battery. Be sure to do this to avoid short-circuiting the electrical system during the installation, which could lead to fire or physical harm for you.[1] X Research source For instructions on disconnecting the battery, see How to Disconnect a Car Battery.Step 2, Unscrew any screws that are securing the trim in place. Be careful to remove all screws before trying to pry off the trim or you may break it.[2] X ...
