Religion and Culture in Early Modern Europe, 1500–1800 ...

As with many cultural advancements and inventions, the 'cradle of civilization' Mesopotamia has been cited as the birthplace of religion. When religion developed in Mesopotamia is unknown, but the first written records of religious practice date to c. 3500 BCE from Sumer. Mesopotamian religious beliefs held that human beings were co-workers with the gods and labored with them and for them to hold back the forces of chaos which had been checked by the supreme deities at the beginning of time.

How Does Religion Impact Child Development?

'Religion' and 'being religious' were interpreted in different ways by the study participants, from simply holding a belief to belonging to a faith community and engaging in religious activities. For most, however, it meant putting religious beliefs into practice through the way they conducted their lives.

Religion, beliefs and parenting practices | JRF

Though Western culture contained several polytheistic religions during its early years under the Greek and Roman Empires, as the centralized Roman power waned, the dominance of the Catholic Church was the only consistent force in Western Europe.

BBC - Religions - Hinduism: History of Hinduism

Egyptian religious beliefs and practices were closely integrated into Egyptian society of the historical period (from c. 3000 bce). Although there were probably many survivals from prehistory, these may be relatively unimportant for understanding later times, because the transformation that established the Egyptian state created a new context for religion .

breaking work of Charles Zika.

For sophomore/junior-level courses in World Religions and Anthropology of Religion in departments of Anthropology, Sociology, and Religion. Religion and Culture introduces students to the major World religions and aboriginal religious traditions. This edited volume presents all aspects of the anthropological perspective on religion. Contributing authors provide a unique assembly of various topics and traditions that are researched by contemporary anthropologists

The values and institutions of the Christian Church remained massively dominant in early modern English society and culture, but its theology, liturgy and unity were increasingly disputed. The period was overall one of institutional conformity and individual diversity: the centrality of Christian religion was universally acknowledged; yet the nature of religion and of religious observance in England changed dramatically during the Reformation, Renaissance, and Restoration. Further, because English culture was still biblical and English society was still religious, the state involved itself in ecclesiastical matters to an extraordinary extent. Successive political and ecclesiastical administrations were committed to helping each other, but their attempts to mould religious beliefs and customs were effectively attempts to modify English culture. Church and state were complementary, yet because they were ultimately distinct estates, they could work only, at best, uneasily in partnership with each other.

Cultural output is thus an ideal lens for examining this period of tension in the church, state and society of England. The case studies contained in this volume examine the intersection of politics, religion and society over the entire early modern period, through distinct examples of cultural texts produced and cultural practices followed.

Religion and the Culture of Print in Modern America explores how a variety of print media—religious tracts, newsletters, cartoons, pamphlets, self-help books, mass-market paperbacks, and editions of the Bible from the King James Version to contemporary “ Bible-zines ” —have shaped and been shaped by experiences of faith since the Civil War. Edited by Charles L. Cohen and Paul S. Boyer, whose comprehensive historical essays provide a broad overview to the topic, this book is the first on the history of religious print culture in modern America and a well-timed entry into the increasingly prominent contemporary debate over the role of religion in American public life.

This book offers fascinating new thinking about the christianisation of early medieval Gaul, the liturgy of Gaul as a significant component of Merovingian culture, and the place of paganism and superstitions in the Merovingian world.

Essays in this volume offer interdisciplinary studies of a county that was at the forefront of religious, political and artistic developments in early-modern England. Ranging from the schism of Reformation to the outbreak of Civil War, the volume brings together scholars from the fields of art history, religious and intellectual history and English literature to offer new

perspectives on early-modern Sussex, and thus on religious change in England as a whole.

"The reader is taken on a global exploration of the forms and diversities of religions and their social and cultural contexts... It is up to the minute in research and theory, and comfortably grounded in the traditions of the social explanation of things religious and spiritual." - Gary Bouma AM, Monash University "Tells how sociology of religion originated in the work of key nineteenth and twentieth century theorists and then brings the story into the present era of globalization, hybrid spirituality, and the Internet. Students of religion will find this an engaging and informative survey of the field." - Robert Wuthnow, Princeton University "It considers the 'big questions' - What is religion? How is religion changing in a modern world? What is the future of religion? - and addresses them through tangible case studies and observations of contemporary life. Its global perspective reflects the breadth, diversity and vibrancy of this field." - Sylvia Collins-Mayo, Kingston University This is a rich and dynamic introduction to the varieties of religious life and the central issues in the sociology of religion today. It leads the reader through the key ideas and main debates within the field as well as offering in-depth descriptions and analysis of topics such as secularization, fundamentalism, Pentecostal Christianity, Buddhism, Hinduism, Islam, atheism, 'The spiritual marketplace', digital religion and new religions like Wicca. Emphasising religion as a global phenomenon, examining especially the ways in which globalization has had an impact on everyday religious life, Singleton has created an illuminating text suitable for students in a wide range of courses looking at religion as a social and cultural phenomenon.
