The acclaimed Penguin Monarchs series: short, fresh, expert accounts of England's rulers - now in paperback Edward III ruled England for fifty years. He was a paragon of kingship in the eyes of his contemporaries, the perfect king in those of later generations.

Penguin Monarchs | Waterstones

No English king has so divided opinion, both during his reign and in the centuries since, more than Richard III. He was loathed in his own time for the never-confirmed murder of his young nephews, the Princes in the Tower, and died fighting his own subjects on the battlefield. This is the vision of Richard we have inherited from Shakespeare.

Richard III (Penguin Monarchs): Horrox, Rosemary ...

In this enlightening, even-handed study, Rosemary Horrox builds a complex picture of a king who by any standard failed as a monarch. He was killed after only two years on the throne, without an heir, and brought such a decisive end to the House of York that Henry Tudor was able to seize the throne, despite his extremely tenuous claim. Whether Richard was undone by his own fierce ambitions, or by the legacy of

Part of the Penguin Monarchs series- short, fresh, expert accounts of England's rulers in a collectible format.

Richard II (1377-99) came to the throne as a child, following the long, domineering, martial reign of his grandfather Edward III. He suffered from the disastrous combination of a most exalted sense of his own power and an inability to impress that power on those closest to the throne. Neither trusted nor feared, Richard battled with a whole series of failures and emergencies before finally succumbing to a coup, imprisonment and murder. Laura Ashe's brilliant account of his reign emphasizes the strange gap between Richard's personal incapacity and the amazing cultural legacy of his reign - from the Wilton Diptych to Sir Gawain and the Green Knight, Piers Plowman and The Canterbury Tales.

No English king has so divided opinion, both during his reign and in the centuries since, more than Richard III. He was loathed in his own time for the never-confirmed murder of his young nephews, the Princes in the Tower, and died fighting his own subjects on the battlefield. This is the vision of Richard we have inherited from Shakespeare. Equally, he inspired great loyalty in his followers. In this enlightening, even-handed study, Rosemary Horrox builds a complex picture of a king who by any standard failed as a monarch. He was killed after only two years on the throne, without an heir, and brought such a decisive end to the House of York that Henry Tudor was able to seize the throne, despite his extremely tenuous claim. Whether Richard was undone by his own fierce ambitions, or by the legacy of a Yorkist dynasty which was already profoundly dysfunctional, the end result was the same: Richard III destroyed the very dynasty that he had spent his life so passionately defending.

The acclaimed Penguin Monarchs series: short, fresh, expert accounts of England's rulers - now in paperback Henry II (1154-89) through a series of astonishing dynastic coups became the ruler of an enormous European empire. One of the most dynamic, restless and clever men ever to rule England, he was brought down both by his catastrophic relationship with his archbishop Thomas Becket and his debilitating arguments with his sons, most importantly the future Richard I and King John. His empire may have ultimately collapsed, but in Richard Barber's vivid and sympathetic account the reader can see why Henry II left such a compelling impression on his contemporaries. Richard Barber has written for Penguin *The Penguin Guide to Medieval Europe*, *The Holy Grail* and *Edward III and the Triumph of England*. He is a

major figure in medieval studies, both as a writer and as a publisher.

King of Britain for sixty years and the last king of what would become the United States, George III inspired both hatred and loyalty and is now best known for two reasons: as a villainous tyrant for America's Founding Fathers, and for his madness, both of which have been portrayed on stage and screen. In this concise and penetrating biography, Jeremy Black turns away from the image-making and back to the archives, and instead locates George's life within his age: as a king who faced the loss of key colonies, rebellion in Ireland, insurrection in London, constitutional crisis in Britain and an existential threat from Revolutionary France as part of modern Britain's longest period of war. Black shows how George III rose to these challenges with fortitude and helped settle parliamentary monarchy as an effective governmental system, eventually becoming the most popular monarch for well over a century. He also shows us a talented and curious individual, committed to music, art, architecture and science, who took the duties of monarchy seriously, from reviewing death penalties to trying to control his often wayward children even as his own mental health failed, and became Britain's longest reigning king.

In 1461 Edward earl of March, an able, handsome, and charming eighteen-year old, usurped the English throne from his feeble Lancastrian predecessor Henry VI. Ten years on, following outbreaks of civil conflict that culminated in him losing, then regaining the crown, he had finally secured his kingdom. The years that followed witnessed a period of rule that has been described as a golden age- a time of peace and economic and industrial expansion, which saw the establishment of a style of monarchy that the Tudors would later develop. Yet, argues A. J. Pollard, Edward, who was drawn to a life of sexual and epicurean excess, was a man of limited vision, his reign remaining to the very end the narrow rule of a victorious faction in civil war. Ultimately, his failure was dynastic- barely two months after his death in April 1483, the throne was usurped by Edward's youngest brother, Richard III.

A detailed study of the role of the king's servants, before and during Richard's reign, explores the practical aspects of obedience, as well as the structure of service relationships and the late medieval client systems.

King John ruled England for seventeen and a half years, yet his entire reign is usually reduced to one image: of the villainous monarch outmanoeuvred by rebellious barons into agreeing to Magna Carta at Runnymede in 1215. Ever since, John has come to be seen as an archetypal tyrant. But how evil was he? In this perceptive short account, Nicholas Vincent unpicks John's life through his deeds and his personality. The youngest of four brothers, overlooked and given a distinctly unroyal name, John seemed doomed to failure. As king, he was reputedly cruel and treacherous, pursuing his own interests at the expense of his country, losing the continental empire bequeathed to him by his father Henry and his brother Richard and eventually plunging England into civil war. Only his lordship of Ireland showed some success. Yet, as this fascinating biography asks, were his crimes necessarily greater than those of his ancestors - or was he judged more harshly because, ultimately, he failed as a warlord?

Part of the Penguin Monarchs series: short, fresh, expert accounts of England's rulers in a collectible format Henry VII was one of England's unlikeliest monarchs. An exile and outsider with barely a claim to the throne, his victory over Richard III at Bosworth Field seemed to many in

Read PDF Richard Iii Penguin Monarchs A Failed King

1485 only the latest in the sequence of violent convulsions among England's nobility that would come to be known as the Wars of the Roses - with little to suggest that the obscure Henry would last any longer than his predecessor. To break the cycle of division, usurpation, deposition and murder, he had both to maintain a grip on power and to convince England that his rule was both rightful and effective. Here, Sean Cunningham explores how, in his ruthless and controlling kingship, Henry VII did so, in the process founding the Tudor dynasty.

The youngest of William the Conqueror's sons, Henry I (1100-35) was never meant to be king, but he was destined to become one of the greatest of all medieval monarchs, both through his own ruthlessness and intelligence and through the dynastic legacy of his daughter Matilda, who began the Plantagenet line that would rule England until 1485. A self-consciously diligent and thoughtful king, his rule was looked back on as the real post-invasion re-founding of England as a new realm, integrated into the continent, wealthy and stable. Edmund King's wonderful portrait of Henry shows him as a strikingly charismatic and thoughtful man. His life was dogged by a single great disaster, the death of his teenage heir William in the White Ship disaster. Despite astonishing numbers of illegitimate sons, Henry was now left with only a daughter. This fact would shape the rest of the 12th century and beyond.
