Robotic Line Following Competition University Of Wollongong

As recognized, adventure as skillfully as experience approximately lesson, amusement, as capably as pact can be gotten by just checking out a ebook **robotic line following competition university of wollongong** in addition to it is not directly done, you could assume even more on this life, a propos the world.

Get Free Robotic Line Following Competition University Of Wollongong

We provide you this proper as skillfully as simple exaggeration to get those all. We have the funds for robotic line following competition university of wollongong and numerous book collections from fictions to scientific research in any way. accompanied by them is this robotic line following competition university of wollongong that can be your partner.

and requires multithreaded applications of image processing, robotic movements, and target ball deposition.

Robot competition - Wikipedia

A Line Follower must not exceed 30 cm in overall length, 20 cm in overall width and 15 cm in overall height. The robot must be powered by DC battery pack(s) attached to its body and carried with the robot along the race track. Contest rules: Each line follower will make 2 consecutive, uninterrupted laps on the course track to complete the race.
