2017
This publication, known as the "Orange Guide", has been an essential reference for those involved in the manufacture or distribution of medicines in Europe. The Orange Guide collates in one convenient and authoritative source European and UK guidance documents and information on legislation relating to the manufacture and distribution of medicines for human use. In the production and distribution of medicines for human use, compliance with Good Manufacturing Practice and Good Distribution Practice is a necessity. Changes to this particular edition include: detailed changes to the EU guide to good

manufacturing practice; detailed revisions to the EU Directive on medicinal products for human use; the new Directive on the Principles and Guidelines on Good Manufacturing Practice of Medicinal Products for Human Use. The document is compiled by the Inspection and Standards Division of the Medicines and Healthcare products Regulatory Agency.

Commonly known as the "Orange Guide," this publication brings together the main pharmaceutical regulations and directives which manufacturers and wholesalers are expected to follow when making and distributing medicinal products in the European Union and European Economic Area.

Guide provides a single source of guidance to, and legislation for, the distribution of medicines in Europe and UK. The Green Guide takes all the elements of the new Rules and Guidance for Pharmaceutical Manufacturers and Distributors 2014 (the Orange Guide) that are relevant to distributors, and reproduces them. Since the last edition in 2007, there have been significant changes and additions to the detailed European Community guidelines on Good Distribution Practice (GDP). The Community code relating to medicinal products for human use has also been substantially amended and the new edition brings together information about these important changes
