Ryan the Black Caiman is Shannon's first children's story, written for her son as he studied the black caiman for his Quest research project. He wanted a way to not only learn about the black caiman but also help them and their habitat.

Brainstorming together yielded the fable: Ryan the Black Caiman and His Unusual Friends. We hope you liked it as much as we enjoyed writing and illustrating it.

The black caiman is a species of large crocodilian and, along with the American alligator, is one of the biggest extant members of the family Alligatoridae and order Crocodylia. It is a carnivorous reptile that lives along slow-moving rivers, lakes, seasonally flooded savannas of the Amazon basin, and in other freshwater habitats of South America. It is a large species, growing to at least 5 m and possibly up to 6 m in length, which makes it the fourth-largest reptile in the Neotropical realm, b

~~Black caiman—Wikipedia~~

Black caimans (*melanosuchus niger*) look similar to alligators and crocodiles. The family tree is quite intertwined, but according to recent research, the caiman is more similar to alligators than crocodiles.
