The second volume of Dr Joseph Needham's great work Science and Civilisation in China is devoted to the history of scientific thought. Beginning with ancient times, it describes the Confucian milieu in which arose the organic naturalism of the great Taoist school, the scientific philosophy of the Mohists and Logicians, and the quantitative materialism of the Legalists.

The latest volume in Joseph Needham's magisterial revelation of China's premodern scientific and technological traditions introduces medicine. Five essays are included by Joseph Needham and Lu Gwei-djen, edited and expanded upon by the editor, Nathan Sivin. The essays offer broad and readable accounts of medicine in culture, including hygiene and preventive medicine, forensic medicine and ...
