Following QCA's new Scheme of Work for Primary Science, this series takes a sequential development through the primary curriculum for science. The pupil books concentrate on content and comprehension questions; the copymasters offer classroom activities and homework. The series should sell equally well overseas, because of its accessibility and emphasis on progression from age 5 through to age 11.

Strap yourself in and teach today's lesson with insight from some exciting futures as envisioned by the best classic and contemporary authors.

unknowns, and critical implications for individuals, families, and societies. Learn more about the brain and nervous system through articles, images, videos, and more on BrainFacts.org, a public information initiative of The Kavli Foundation, the Gatsby Charitable Foundation, and the Society for Neuroscience.

With contributions from leading scholars, this compelling volume offers fresh insights into literacy teaching and learning—and the changing nature of literacy itself—in today's K–12 classrooms. The focus is on varied technologies and literacies such as social networking sites, text messaging, and online communities. Cutting-edge approaches to integrating technology into traditional, print-centered reading and writing instruction are described. Also discussed are ways to teach the new skills and strategies that students need to engage effectively with digital texts. The book is unique in examining new literacies through multiple theoretical lenses, including behavioral, semiotic, cognitive, sociocultural, critical, and feminist perspectives.

The method of teaching each subject play a pivotal role in enhancing the efficiency of their practitioners. Identifying the very importance of the methods of teaching and the quality of books, a series of books on the methods of teaching different subjects have been developed by experienced teacher educators for the benefit of teachers in making in teacher education institutions. Contents: Teacher s Role, Teaching Techniques, Methods of Vogue, Approaches in Vogue, Aims and Objectives of Teaching, Advancement of Science in India, Behaviour and Objectives, Educational Technology, Audio-visual Aids in Use, Experiments in Innovation, Programmes for Enrichment, Instruction in a
