Scrying is the art of seeing things that are happening somewhere else. Dr. John Dee said he prefers to use pure water but that any kind of liquid would work. In The Sorceress, William Shakespeare and Nicholas Flamel turned the small crystals in a computer monitor to liquid crystal and used that to scry Perenelle while she was on Alcatraz island.

Scrying. Scrying is the ancient art of clairvoyance achieved by concentrating upon an object\u2014usually one with a shiny surface\u2014until visions appear. The term scrying comes from the English word descry, which means [\[to make out dimly\]](#) or [\[to reveal\]](#). The services of a scryer typically are sought for predictions of the future, answers to questions, solutions to problems and help in finding lost objects and in identifying or tracking down criminals.

Scrying, also known by various names such as "seeing" or "peeping", is the practice of looking into a suitable medium in the hope of detecting significant messages or visions. The objective might be personal guidance, prophecy, revelation, or inspiration, but down the ages, scrying in various forms also has been a prominent means of divination or fortune-telling. It remains popular in occult circles, discussed in many media, both modern and centuries old.
