The S60 Platform is a software platform for smartphones that runs on top of the Symbian operating system. It was created by Nokia based on the 'Pearl' user interface from Symbian Ltd. It was introduced at COMDEX in November 2001 and first shipped with the Nokia 7650 smartphone. The platform has since seen 5 updated editions. Series 60 was renamed to S60 in November 2005. In 2008, the Symbian Foundation was formed to consolidate all the assets of different Symbian platforms, making it open source

A User's Guide to Trade Marks and Passing Off, 4th edition focuses on the current law relating to the protection of registered trademarks and certain related rights. This includes registered trade marks, well-known trade marks, certification marks, collective marks, protested geographical origin indicators, international conventions, and Passing off. There is clear explanation of the underlying principles and concepts with a breakdown of procedural matters, thereby helping to tie the different areas together. Includes the following case law: Illustrative cases such as Lush, Scrabble, Starbucks, Glee Club and Jack Wills; Cadbury and what it means for registering colours as trade marks; How to tackle survey evidence after Interflora; Greek yoghurt continuing the Vodkat line of passing-off cases; Specsavers ¶ Europe's view on the effect of using elements not included in a trade mark registration. Previous print edition ISBN: 9781845921569
