The Singing Plants of Damanhur, Italy Hearing the music of the plants for the first time It is an amazing and magical experience to hear the plants sing. I love witnessing the joy and wonder on people's faces when they hear a plant make music for the first time.

Hearing the Music of the Plants - UPLIFT

There, there, you might comfort a drooping pilea. It's totally normal to speak to plants, and now there's finally a way to hear them talk back to you. Well, sort of. PlantWave, currently available on Kickstarter for \$220, is a device that detects electrical variations in plants, then turns those variations into pitches. Essentially, it translates the changes it discovers over time into what could be loosely defined as music.

The PlantWave Device Allows You to Hear Your Plants Sing

When you sing or talk to your plant you are expelling carbon dioxide which the plant needs to absorb to allow it to go through the process of photosynthesis and grow. In turn, the plant releases oxygen back to you, which is both beneficial and important for your health.

Should You Sing to Your Garden? - Farmers' Almanac

Singing to Plants. I first heard about this idea in high school. I haven't been lying to you when I've shared that I love a good experiment, as further evidenced by my teenage (but admittedly not scientific) test to see if singing to plants really works. First I just sang while I cleaned my room.

Let it Grow! Singing to Your Plants : Arcadia Farms

The Singing Plants Todd awoke to singing. The singing was light and airy. It reminded him of a sunrise. Well that's appropriate, thought Todd, it's so early the sun is probably just rising. As his mind grew more awake, Todd realized that he didn't know where the music was coming from. He checked his radio, as well as his phone. Nothing.

Does Singing to Plants Really Help Them Grow?

There are a number of human experiences that are characterized by presentness, detail, externality, and three-dimensional explorable spacefulness: we can call these visionary experiences.These can be characterized along two dimensions - according to the degree to which the experience is entered into intentionally, and by the amount of control the experiencer exercises over its content.

The Blog | Singing to the Plants

Jun 28, 2019 5:24am. Singing to plants. When renowned opera singer Antoinette Halloran and her partner and fellow opera singer, James Egglestone, rehearse in their backyard studio in Melbourne, it appears that it's not just the neighbours who are listening to their singing. A healthy veggie patch surrounds the studio and Antoinette picks "freak crops", ranging from cabbage to zucchini and tomato.
