Novelizations of Episodes IV - VI of the Star Wars movies.

Star Wars Episode VII: The Force Awakens left us with a lot of unanswered questions: The galaxy was again at war, but weren't sure why. The Empire was reborn as the First Order under Supreme Leader Snoke, but we didn't know where he came from or how he wound up taking control. We didn't learn what caused Kylo Ren to betray his family. The reasons Luke Skywalker disappeared were unknown. Rey discovered her immense power in the Force, but we didn't know where she got it from, who her parents were, or why they abandoned her on Jakku and never returned. Fans went to see Episode VIII with an understandable expectation to learn the answers to these mysteries, but to say that many of them went home sorely disappointed would be an understatement. In this book, we'll explore the stark contrast between the mysteries that were set up in Episode VII and the resolutions we got in Episode VIII, how it may be the product of two conflicting visions of different directors (JJ Abrams and Rian Johnson), what it all means for the future of the Star Wars saga, whether there's any way back, and what new mysteries the Last Jedi left us with that could be answered in Episode IX (if they feel like it).
