An award-winning work of brilliant passion and epic poetry that vividly captures the impossible truth of an entire romance from beginning to end. Jimmy Santiago Baca introduces us to a man and woman before they are acquainted and re-creates their first meeting, falling in love, their decision to make a family, the eventual realization of each other's irreconcilable faults, the resulting conflicts, the breakup and hostility, and, finally, their transcendence of the bitterness and resentment. Throughout the relationship we are privy to the couple's astonishing range of emotions: the anguish of loneliness, the heady rush of new love, the irritations and joys of raising children, the difficulties in truly knowing someone, the doldrums of breakup, and so on. It is impossible not to identify with these characters and to recognize one's own experience in theirs. As he weaves this story, Baca explores many of his traditional themes: the beauty and cruelty of the desert lands where he has spent much of his life, the grace and wisdom of animals, the quiet dignity of life on small Chicano farms. An extraordinary work that "expresses both bliss and heartache with lyric intensity" (Booklist) from one of America's finest poets. "Baca is a force in American poetry . . . His words heal, inspire, and elicit the earthly response of love." —Garrett Hongo "[Baca] writes with unconcealed passion . . . what makes his writing so exciting to me is the way in which it manifests both an intense lyricism and that transformative vision which perceives the mythic and archetypal significance of life-events." —Denise Levertov

A colorful study of a masterpiece of residential architecture by one of America's leading modern architects offers a visual tour of the stylish Grotta House in Harding Township, New Jersey, a home that exemplifies the best in modernist design and showcases the owners' exceptional furniture and crafts collection. 12,500 first printing.

This landmark book addresses the data conversion issues involved in geographic information systems (GIS) technology. Converting paper-based maps to digital files can be expensive, complicated, and time consuming. It is the first comprehensive handbook that cohesively integrates the many complex issues of data conversion into a single publication for the GIS professional as well as for the student or layperson. Written and edited by international authorities on GIS conversion, the handbook covers the subject from basic conversion issues and map digitizing to advanced data capture techniques.

In this clever book, bestselling author Richard Templar delivers a collection of principles, tactics and techniques that will make sure things always get done, without you ever having to break a sweat or stay up into the small hours to do it. These pithy, self-contained ideas are so straightforward that you can even read the book itself without trying too hard

A guide to HTML5 covers such topics as markup, Web forms, audio and video, Canvas, CSS3, data storage, offline applications, and JavaScript.

Students of entomology at every level need to be able to identify and classify the insects they study. How to Know the Insects has helped generations of readers learn to do just that. The key to insect Orders---the largest section of the book---uses both written text and myriad illustrations to provide identification details down to the family level as well as for common species of each family. In addition, Bland and Jaques provide accounts of insect lies, and extensive material in finding collecting, and preserving insects. The handbook serves as a valuable learning tool or reference for undergraduate and graduate students of entomology, science educators, insect collectors, and anyone interested in the diversity of insects.

No matter what field one may be in, there is a need to market oneself, and Girard, bestselling author of "How to Sell Anything to Anybody," reveals important sales secrets for everyday life.

Humility, or holding power loosely for the sake of others, is sorely lacking in today's world. Without it, many people fail to develop their true leadership potential and miss out on genuine fulfillment in their lives and their relationships. Humilitas: A Lost Key to Life, Love, and Leadership shows how the virtue of humility can turn your strengths into true greatness in all areas of life. Through the lessons of history, business, and the social sciences, author John Dickson shows that humility is not low self-esteem, groveling, or losing our distinct gifts. Instead, humility both recognizes our inherent worth and seeks to use whatever power we have at our disposal on behalf of others. Some of the world's most inspiring and influential players have been people of immense humility. The more we learn about humility, the more we understand how essential it is to a satisfying career and personal life. By embracing this virtue, we will transform for good the unique contributions we each make to the world.

Acclaimed biologist Lewis Wolpert eloquently narrates the basics of human life through the lens of its smallest component: the cell. Everything about our existence-movement and memory, imagination and reproduction, birth, and ultimately death-is governed by our cells. They are the basis of all life in the universe, from bacteria to the most complex animals. In the tradition of the classic Lives of a Cell, but with the benefit of the latest research, Lewis Wolpert demonstrates how human life grows from a single cell into a body, an incredibly complex society of billions of cells. Wolpert goes on to examine the

Where To Download Strathmore Cpa Notes Sunetisyt

science behind topics that are much discussed but rarely understood—stem-cell research, cloning, DNA, cancer—and explains how all life on earth evolved from just one cell. Lively and passionate, this is an accessible guide to understanding the human body and life itself.

A riveting stand-alone short story from bestselling author Kelley Armstrong. Kat is a sixteen-year-old vampire, and she's not too happy about it. After an experiment-gone-wrong and a bullet to the heart, she now hungers for human blood, and the worst part about that is the guilt. But guilt isn't the only thing stressing her. Kat is being hunted by the Edison Group, a dangerous Cabal that is responsible for her undead state. Kat is running out of places to hide, and she has no one to turn to—until she meets Chad and Neil. They're on the run like she is, and they offer to help Kat against their common enemy. But the boys aren't all that they seem, and for Kat, deciding whether to trust them may be a matter of life or death. Set in the world of Kelley Armstrong's New York Times bestselling Darkest Powers and Darkness Rising series, "Hunting Kat" will leave you on the edge of your seat and thirsting for more.
