Back in '84, Suzuki bored out the GS1100 mill, upped the compression, played with cam timing, and launched the 1150E. Motorcycle magazines of the day promptly ripped off quarter mile times in the 10 second range, and proclaimed it the fastest bike of the year. With nearly 120 hp on tap, the 1150E was stout – to say the least.

Larry Grodsky devoted his life to motorcycle safety. Through the riding courses he taught and his "Stayin' Safe" columns in Rider magazine (from 1988 until his untimely death in 2006), he helped thousands of motorcyclists improve their skills and their ability to ride really well. This collection of Grodsky's columns reveals his ability to illuminate complex and sometimes highly technical subjects with an entertaining and personal style, spiced with his trademark wry wit and keen observations of human behavior. A master teacher, Grodsky was constantly learning from his students, always striving to find the best way to lead riders towards the mastery of their two-wheeled vehicles. Many of his columns focus on helping riders develop specific skills (complete with practice exercises), while others deal with the riding environment and riders' mental processes. Although it is packed with information useful to both novice and experienced motorcyclists, this book is not structured as a how-to guide to motorcycle proficiency. Rather, it is a collection of thoughtful essays to be read and savored individually. Readers will be rewarded by the beautifully written stories of a great motorcycle riding instructor who has left his mark on a generation of grateful riders.

By 250 AD, Christianity had spread throughout India and China. Known as the Shining Religion or the Luminous Teaching, it drew adherents from Buddhism and Hinduism who were seeking a faith that taught the possibility of achieving a society founded on love and compassion for their fellow man. The new doctrine reached the island nation of Japan where it was so well received that Christianity threatened to supplant Buddhism as the dominant religion. By the close of the 16th century Japanese Christians numbered in the millions. Fifty years later Christianity was officially proscribed and Christians faced execution for openly practicing their faith. Jesus and the Samurai tells their fascinating story with facts drawn from ancient and modern sources.

This volume deals with the history of the "common people" in the Middle East, both villagers and urban dwellers. It investigates some of the characteristic traits of the structure and development of urban and rural society in pre-modern and modern Middle Eastern history.

Somewhere deep in the woods lies the small community of Critter Village, a domed habitat for animals who have successfully evicted their human neighbors and built their own society. In 'This Can't Be Happening', Carson's buddies ditch social contact in favor of the wildy popular Pokémon Go! phone app. Lonely and bored, Carson uncovers a sinister connection between the app and Roger's Grocery Store, and enlists Nutso for help.
