Research in Education. Research in Education provides a space for fully peer-reviewed, critical, trans-disciplinary, debates on theory, policy and practice in relation to Education. International in scope, we publish challenging, well-written and theoretically innovative contributions that question and explore the concept, practice and institution of Education as an object of study.

Research in Education: SAGE Journals

Integrating contemporary art and themes into teaching requires a shift from predominantly technique-driven instruction to idea-driven instruction. Many artists do not work in a single medium or technique and instead try to explore an idea, event, situation, or question through multiple media and visual strategies.

The seventh grade Language Arts, Science and Social Studies teachers might work together to form an interdisciplinary unit on rivers. The local river system would be the unifying idea. The English teacher would link it to Language Arts by studying river vocabulary and teaching students how to do a research report. The science teacher might teach children about the life systems that exist in the river The Social Studies teacher might help students research the local history and peoples who ...

Contemporary teaching strategies powerpoint by lian

Contemporary Issues in Learning and Teaching looks at current issues across the three key areas of policy, learning and practice. It will help you to think critically on your Education course, and to make connections between the processes of learning and the practicalities of teaching. The book addresses key issues in primary, secondary and special education, and includes examples from all four countries of the UK.
