Why does the church teach? And what should it teach? In recent years, traditional Sunday school and education programs have declined in influence and effectiveness. Education in the church is often sidelined by other competing priorities, and our efforts become haphazard and random. As a result, many Christians have not learned the fundamental doctrinal content of the faith. As a response, a growing number of church ministries have moved toward an emphasis on Christian spiritual formation. But churches must hold together education and formation, the teaching of the faith and the forming of the faithful. In this comprehensive text, Gary Parrett and Steve Kang attend to both the content and process of educational and formational ministries. They set forth a thoroughly biblical vision for intentional teaching of the Christian faith, with a holistic concern for what and whom is taught as well as how and why. Fully apprised of developments in educational theory and pedagogy, Parrett and Kang propose a core curriculum for recovering the full scope of Christian proclamation and reinvigorating the teaching ministry of the church. Their vision has implications not merely for catechesis, but for preaching, worship, children's and youth ministry, and much more. The body of Christ can become all that God intends it to be, through intentional practices that foster personal and corporate formation. Here is guidance for individuals and congregations on that journey.

Congregations are always struggling with what quality Christian education is and how to build and maintain it. In this concise and easy-to-use guide, Karen Tye offers practical help, addressing the vital areas that need attention when planning for and building a Christian education program. Questions and exercises at the end of each chapter help pastors, Christian educators, seminary students, and laity apply the information to their own unique setting, building on the basics to renew and transform Christian education.

J. K. Rowling was less obvious than C. S. Lewis or J. R. R. Tolkien in her grounding of the Harry Potter series in deeply held Christian convictions, leaving many with a strong sense that these stories are spiritual lessons but not sure how to flesh out these theological ideas for teaching, parenting, mentoring, and forming faith. The Harry Potter series stands as one compelling narrative, rooted in Rowling's Anglican convictions of the communion of saints, the power of sacraments, the redemption of sacrificial love, and the defeat of death in the resurrection through grace. Tricia Lyons identifies, clarifies, and systematizes the Christian themes J.K. Rowling uses throughout the series, so anyone can apply the Harry Potter universe in lifelong and life-wide formation. Readers will be able to use the book as a reference manual for using Harry Potter in preaching and formation, to integrate into the current theological season, or for book studies, sermons, bible studies, VBS content, youth groups, parish retreats, parenting classes, baptismal preparation, marriage, and confirmation.

Essential reading for anyone involved in Christian education, this classic bestseller outlines a strategic vision for education that is designed to produce Christ-like people.

Historically, the church's ministry of grounding new believers in the essentials of the faith has been known as catechesis--systematic instruction in faith foundations, including what we believe, how we pray and worship, and how we conduct our lives. For most evangelicals today, however, this very idea is an alien concept. Packer and Parrett, concerned for the state of the church, seek to inspire a much needed evangelical course correction. This new book makes the case for a recovery of significant catechesis as a nonnegotiable practice of churches, showing the practice to be complementary to, and of no less value than, Bible study, expository preaching, and other formational ministries, and urging evangelical churches to find room for this biblical ministry for the sake of their spiritual health and vitality.

Following his well-received *Ancient-Future Faith*, Robert Webber presents a new model for evangelism and discipleship, the first in a series of four books applying his theoretical ideas to practical situations. Part 1 of *Ancient-Future Evangelism* surveys evangelism and Christian formation throughout the church and then translates the process for twenty-first-century Christians. Webber presents evangelism as four distinct stages and suggests three accompanying rites of passage that can be easily adapted to any church tradition. Part 2 underscores how the four-fold process of faith formation is interwoven with three theological principles: Christ as victor over evil, the church as witness to God's salvation, and worship as a witness to God's mission accomplished in Jesus. *Ancient-Future Evangelism* will appeal to both emerging evangelicals as well as traditional church leaders. It relates faith to Christian practice by drawing wisdom from the past and translating those insights into the present and future life of the church.

Here the authors convincingly show that intergenerational faith formation, when done well, can be powerful, dramatic, even magical. Not only is there a place for intergenerational learning in

parish faith formation, the authors believe there is a necessity for it. They show that intergenerational faith formation can help children, adolescents, and adults effectively identify with and integrate into the faith community because their learning and formation takes place in the context of community all ages learning together. People will be looking for this one.

Christian teachers have long been thinking about what content to teach, but little scholarship has been devoted to how faith forms the actual process of teaching. Is there a way to go beyond Christian perspectives on the subject matter and think about the teaching itself as Christian? In this book David I. Smith shows how faith can and should play a critical role in shaping pedagogy and the learning experience.
