Through Time *The Debatable Land The Lost*

Outlaw country, in the truest sense The Debatable Land: The Lost World Between Scotland and England, by Graham Robb, is a detailed and fascinating look at a little known border territory. Though it's all but gone from maps and modern minds, the territory between Scotland and England was contested for centuries, and the site of all sorts of warfare, banditry and political scheming.

The Debatable Land: The Lost World Between Scotland and ...

Rich in detail and epic in scope, The Debatable Land takes us from a time when neither England nor Scotland existed to the present day, when contemporary nationalism and political turmoil threaten to unsettle the cross-border community once more.

The Debatable Land: The Lost World Between Scotland and ...

In The Debatable Land, historian Graham Robb recovers the history of this ancient borderland in an exquisite tale that spans Roman, Medieval, and present-day Britain. Rich in detail and epic in scope, The Debatable Land provides a crucial, missing piece in the puzzle of British history. 16 pages of black and white illustrations

The Debatable Land: The Lost World Between Scotland and ...

The Debatable Land Summary The Debatable Land: The Lost World Between Scotland and England by Graham Robb 'A book worth reading' Andrew Marr, Sunday Times The Debatable Land was an independent territory which used to exist between Scotland and England.

Best-selling author Graham Robb finds that the 2,000-year-old map of Ptolemy unlocks a central mystery of British history. Two years ago, Graham Robb moved to a lonely house on the very edge of England, near the banks of a river that once marked the southern boundary of the legendary Debatable Land. The oldest detectable territorial division in Great Britain, the Debatable Land served as a buffer between Scotland and England. It was once the bloodiest region in the country, fought over by Henry VIII, Elizabeth I, and James V. After most of its population was slaughtered or deported, it became the last part of Great Britain to be brought under the control of the state. Today, it has vanished from the map and its boundaries are matters of myth and generational memories. Under the spell of a powerful curiosity, Robb began a journey—on foot, by bicycle, and into the past—that would uncover lost towns and roads, and unlock more than one discovery of major historical significance. These personal and scholarly adventures reveal a tale that spans Roman, Medieval, and present-day Britain. Rich in detail and epic in scope, The Debatable Land takes us from a time when neither England nor Scotland existed to the present day, when contemporary nationalism and political turmoil threaten to unsettle the cross-border community once more. With his customary charm, wit, and literary grace, Graham Robb proves the Debatable Land to be a crucial, missing piece in the puzzle of British history.

The Debatable Land was an independent territory which used to exist between Scotland and England. It is the oldest detectable territorial division in Great Britain. At the height of its notoriety, it was the bloodiest region in the country, and preoccupied the monarchs and parliaments of England, Scotland and France. After most of its population was slaughtered or deported, it became the last part of Great Britain to be conquered and brought under the control of a state. Today, it has vanished from the map and no one knows exactly where and what it was. When Graham Robb moved to a lonely house on the very edge of England, he discovered that the river which almost surrounded his new home had once marked the Debatable Land's southern boundary. Under the powerful spell of curiosity, Robb began a journey – on foot, by bicycle and into the past – that would uncover lost towns and roads, shed new light on the Dark Age, reveal the truth about this maligned patch of land, and lead to more than one discovery of major historical significance. For the first time – and with all of his customary charm, wit and literary grace – Graham Robb, prize-winning author of The Discovery of France, has written about his native country. The Debatable Land is an epic and energetic book that takes us from 2016 back to an age when neither England nor Scotland could be imagined to reveal a crucial, missing piece in the puzzle of British history.

Stretching from the North Sea to the Solway Firth, the Border region has a sharply diverse landscape and was a battleground for over 300 years as the English and Scottish monarchs encouraged their subjects to conduct raids across their respective borders. This Warrior title will detail how this narrow strip of land influenced the Borderer's way of life in times of war. Covering every aspect of militant life, from the choice of weapons and armour to the building of fortified houses, this book gives the readers a chance to understand what it must have been like to live life in a late-medieval war zone.

A treasure hunt that uncovers the secrets of one of the world's great civilizations, revealing dramatic proof of the extreme sophistication of the Celts, and their creation of the earliest accurate map of the world. Fifty generations ago the cultural empire of the Celts stretched from the Black Sea to Ireland and the Highlands of Scotland. In six hundred years, the Celts had produced some of the finest artistic and scientific masterpieces of the ancient world. In 58 BC, Julius Caesar marched over the Alps, bringing slavery and genocide to western Europe. Within eight years the Celts of what is now France were utterly annihilated, and in another hundred years the Romans had overrun Britain. It is astonishing how little remains of this great civilization. While planning a bicycling trip along the Heraklean Way, the ancient route from Portugal to the Alps, Graham Robb discovered a door to that forgotten world—a beautiful and precise pattern of towns and holy places based on astronomical and geometrical measurements: this was the three-dimensional "Middle Earth" of the Celts. As coordinates and coincidences revealed themselves across the continent, a map of the Celtic world emerged as a miraculously preserved archival document. Robb—"one of the more unusual and appealing historians currently striding the planet" (New York Times)—here reveals the ancient secrets of the Celts, demonstrates the lasting influence of Druid science, and recharts the exploration of the world and the spread of Christianity. A pioneering history grounded in a real-life historical treasure hunt, The Discovery of Middle Earth offers nothing less than an entirely new understanding of the birth of modern Europe.

"A witty, engaging narrative style...[Robb's] approach is particularly engrossing." —New York Times Book Review A narrative of exploration—full of strange landscapes and even stranger inhabitants—that explains the enduring fascination of France. While Gustave Eiffel was changing the skyline of Paris, large parts of France were still terra incognita. Even in the age of railways and newspapers, France was a land of ancient tribal divisions, prehistoric communication networks, and pre-Christian beliefs. French itself was a minority language. Graham Robb describes that unknown world in arresting narrative detail. He recounts the epic journeys of mapmakers, scientists, soldiers, administrators, and intrepid tourists, of itinerant workers, pilgrims, and herdsmen with their millions of migratory domestic animals. We learn how France was explored, charted, and colonized, and how the imperial influence of Paris was gradually extended throughout a kingdom of isolated towns and villages. The Discovery of France explains how the modern nation came to be and how poorly understood that nation still is today. Above all, it shows how much of France—past and present—remains to be discovered. A New York Times Notable Book, Publishers Weekly Best Book, Slate Best Book, and Booklist Editor's Choice.

From the thirteenth to the sixteenth centuries, outlaws reigned supreme on the contentious frontier between England and Scotland. Feud and terror, raid and reprisal, were the ordinary stuff of life—and a way of survival. Power was held by the notorious border reivers (the "steel bonnets," named for their flashy helmets), who robbed and murdered in the name of family: the famous clans (or "grains")—like Elliot, Armstrong, Charlton, and Robson—romanticized by Sir Walter Scott. In The Steel Bonnets, George MacDonald Fraser, author of the bestselling Flashman novels, and himself a borderer, tells the fascinating and bloody story of the reivers, their rise to power as ferocious soldiers of horse, and their surprisingly sudden fall from grace.

An "exciting and dramatic" history of the raiders who ruled the lawless Anglo-Scottish borderlands for over a century (Cumberland News). Nowhere else in Britain in the modern era, or indeed in Europe, did civil order break down over such a wide area, or for such a long time, as on the border country between Scotland and England. For more than a century, the hoofbeats of countless raiding parties drummed over the border. From Dumfriesshire to the high wastes of East Cumbria, from Roxburghshire to Redesdale, from the lonely valley of Liddesdale to the fortress city of Carlisle, swords and spears spoke while the law remained silent. Fierce family loyalty counted for everything, while the rules of nationality counted for nothing. The whole range of the Cheviot Hills, its watershed ridges and the river valleys that flowed out of them, became the landscape of larceny while Maxwells, Grahams, Fenwicks, Carletons, Armstrongs, and Elliots rode hard and often for plunder. These were the Riding Times and in modern European history, they have no parallel. This book tells the remarkable story of the Reivers and how they made the Borders.

In the space between nations, nothing is out of bounds. 1542. For centuries the Scottish and English borders were known as the Debatable lands: wild, lawless, and the province of reivers, tight-knit robber families that roamed and pillaged the remote passes without fear... Fifteen-year-old Mintie Henderson has just seen her father murdered. With the Scottish King newly dead and an army of hired reivers on the march, justice is in short supply. Then she comes across Batty Coalhouse: one-armed and hard as nails. Together they will set out on a journey of revenge. But they are soon caught up in something bigger, a tale of Mary Queen of Scots and King Henry VIII. Stuck in the heart of a tempest, they know only one way to get out alive... Fight. Dark, brutal and utterly unforgettable, this is a triumphant novel from a modern master, perfect for fans of Conn Iggulden, Bernard Cornwell and Christian Cameron.

"Graham Robb tells the complicated story of this colossal life with authority and sympathy. . . . Unquestionably, a magnificent biography".--"Washington Square Press". of photos.

Based on historical events, this unforgettable and inspiring tale for middle-grade readers is about a young boy torn from the only life he's ever known and held captive as a prisoner of war. In 1982, twelve-year-old Reza has no interest in joining Iran's war effort against Iraq. But in the wake of a tragedy and at his mother's urging, he decides to enlist, assured by the authorities that he will achieve paradise should he die in service to his country. War does not bring the glory the boys of Iran have been promised, and Reza soon finds himself held in a prisoner-of-war camp in Iraq, where the guards not only threaten violence—they act upon it. Will Reza make it out alive? And if he does, will he even have a home to return to? Friendship, heartbreak, and Reza's very survival are at stake as he finds solace through music and forges his own path—wherever that might take him.
