tasks that you complete. Setting a process goal means you have to identify what you actually have to do achieve a larger goal. As an example, a you could set a process goal of going to the gym 4 times a week. This is goal is easy to measure.

Process Goals vs Outcome Goals: How to Decide

Simplify your problem to the point where you understand the true goal of your organization. With your goal in mind, identify the constraints within your system (i.e. bottlenecks) and focus on improving the output of that constraint without worrying about the productivity of all related processes.
