One of the masterpieces of classical literature, The Histories describes how a small and quarrelsome band of Greek city states united to repel the might of the Persian empire. But while this epic struggle forms the core of his work, Herodotus' natural curiosity frequently gives rise to colourful digressions - a description of the natural wonders of Egypt; tales of lake-dwellers, dog-headed men and gold-digging ants.

Recounts the causes and history of the wars between the Greek city-states and Persia.

David Grene, one of the best known translators of the Greek classics, splendidly captures the peculiar quality of Herodotus, the father of history. Here is the historian, investigating and judging what he has seen, heard, and read, and seeking out the true causes and consequences of the great deeds of the past. In his History, the war between the Greeks and Persians, the origins of their enmity, and all the more general features of the civilizations of the world of his day are seen as a unity and expressed as the vision of one man who as a child lived through the last of the great acts in this universal drama. In Grene's remarkable translation and commentary, we see the historian as a storyteller, combining through his own narration the skeletal "historical" facts and the imaginative reality toward which his story reaches. Herodotus emerges in all his charm and complexity as a writer and the first historian in the Western tradition, perhaps unique in the way he has seen the interrelation of fact and fantasy. "Reading Herodotus in English has never been so much fun. . . . Herodotus crowds his fresco-like pages with all shades of humanity. Whether Herodotus's view is 'tragic,' mythical, or merely common sense, it provided him with a moral salt with which the diversity of mankind could be savored. And savor it we do in David Grene's translation."—Thomas D'Evelyn, Christian Science Monitor "Grene's work is a monument to what translation intends, and to what it is hungry to accomplish. . . . Herodotus gives more sheer pleasure than almost any other writer."—Peter Levi, New York Times Book Review

Herodotus was an ancient Greek historian who lived in the fifth century BC (c.484 - 425 BC). He has been called the "Father of History", and was the first historian known to collect his materials systematically, test their accuracy to a certain extent and arrange them in a well-constructed and vivid narrative. The Histories-his masterpiece and the only work he is known to have produced-is a record of his "inquiry", being an investigation of the origins of the Greco-Persian Wars and including a wealth of geographical and ethnographical information. The Histories, were divided into nine books, named after the nine Muses: the "Muse of History", Clio, representing the first book, then Euterpe, Thaleia, Melpomene, Terpsichore, Erato, Polymnia, Ourania and Calliope for books 2 to 9, respectively.

During the fifth century BC, a small and quarrelsome band of Greek city-states united to repel a mighty Persian army. While the story of this heroic drama forms the main theme of Herodotus' narrative, the author's curiosity fleshes out the text with digressions, folk tales and stories.

Regarded by many as the first major historian, Herodotus was a Greek scholar and traveler who set down his impressions of foreign countries and his analysis of wars and other significant events in a relatively straightforward, journalistic manner. This volume contains Herodotus' views on Egypt. For centuries, some of the the author's claims about Egypt were regarded as far-fetched, but evidence has recently come to light that supports some of his long-doubted account.
