This exam will fulfill the Windows Server 2008 IT Professional requirements of Exam 70-646. The Microsoft Certified IT Professional (MCITP) on Windows Server 2008 credential is intended for information technology (IT) professionals who work in the complex computing environment of medium to large companies.

This exam is designed to validate Windows Server 2008 network infrastructure configuration skills. This exam will fulfill the Windows Server 2008 Technology Specialist requirements of Exam 70-642. This is a test for new certification seekers, not for those who are upgrading from Windows 2000/2003 MCSE/MCSA certification. The Microsoft Certified Technology Specialist (MCTS) on Windows Server 2008 credential is intended for information technology (IT) professionals who work in the complex computing environment of medium to large companies. The MCTS candidate should have at least one year of experience implementing and administering a network operating system in an environment that has the following characteristics: 250 to 5,000 or more users; three or more physical locations; and three or more domain controllers. MCTS candidates will manage network services and resources such as messaging, a database, file and print, a proxy server, a firewall, the Internet, an intranet, remote access, and client computer management. In addition MCTS candidates must understand connectivity requirements such as connecting branch offices and individual users in remote locations to the corporate network and connecting corporate networks to the Internet. * Study resource for those taking MCTS/MCITP exam 70-642, which is for NEW certification seekers, not for upgraders. * Two full-function ExamDay practice exams guarantee double coverage of all exam objectives * Free download of audio FastTracks for use with iPods or other MP3 players * THE independent source of exam-day tips, techniques, and warnings not available from Microsoft * Comprehensive study guide guarantees 100% coverage of all Microsoft's exam objectives * Interactive FastTrack e-learning modules help simplify difficult exam topics

A self-paced tutorial for MCTS/MCITP exam candidates includes interactive e-learning modules covering such exam topics as network services and resources, messaging, databases, firewalls, the Internet and Intranet functions, remote access, client computer management, and connectivity requirements, accompanied by helpful test-taking strategies and techniques. Original. (Intermediate)
