But to understand why serial murder is on the rise, we must first understand how the serial killer thinks. Using privileged access to the world's first National Centre for the Analysis of Violent Crime, Colin Wilson and Donald Seaman bring you this incisive study of the psychology of serial killers and the motives behind their crimes.

The Serial Killers: A Study in the Psychology of Violence

United by acts of unimaginable cruelty, the West's partnership was one of the most deadly in criminal history. And serial killers are increasing. Triggered by either sexual fantasies or a need to inflict pain and fear, their sadistic addiction to frenzied killing is the most horrifying of all crimes.
