There is so much detail to be captured in a face. Cicero (106-43 BC) said: "The face is a picture of the mind as the eyes are its interpreter." To capture a person's personality, there are many things to keep in mind, and the authors of FACES show us how to match up a personality with lighting, posing, and composition. Portraiture is truly an art, and this book dives deep into the details so that you end up with a gorgeous portrait that both you and your subject love. Not only is this book the most comprehensive title available on portraiture, but it contains stunning images. Each image is paired with a lighting diagram, a description of why the type of image was chosen, and then takes you through postproduction to put the finishing touches on. The authors also showcase a gallery of portraits by renowned photographers.

Featuring techniques and images from more than 40 of the industry's top photographers, this resource shows the best methods for lighting and posing individuals, couples, and groups, both on location and in the studio. Details are included on how to pose subjects, elicit expressions, create dynamic compositions, and utilize traditional lighting setups. Whether a photographer shoots weddings, group portraits, executive images or a little bit of everything, this book serves as a how-to guide and an idea file. Fully updated with all new images and covering the newest digital technology and latest software versions, this resource is an indispensable guide for photographers.
