Schools and school staff play a critical role in the cognitive, behavioral, emotional, social, and interpersonal development of children and adolescents. This second edition of Cognitive-Behavioral Interventions in Educational Settings teaches readers to think strategically about the individual and plan for effective and specific interventions based on the student ' s age, developmental level, and presenting problems. It is written by forward-thinking, established professionals whose writing represents the state-of-the-art in cognitive behavioral interventions in educational settings, and presents evidence-based interventions for a variety of issues commonly seen in schools. Including both innovative and well-established approaches, they offer assessment methods and interventions for a variety of issues and concerns faced by school-aged youth. The use of case studies and session outlines, as well as the balance of theoretical and clinical concerns, enhances this book ' s value as a reference for both clinicians and students. New to this edition are topics on cyber-bullying, parent and school consultation, school-wide positive behavioral support, and bipolar disorder. This is the ideal reference for those who wish to select and utilize precise interventions in school settings.
