This is the graphic, first-hand story of the maiden voyage and disastrous sinking of the RMS Titanic, told by the survivors themselves. The story of the sinking of the great liner has been told countless times since that fateful night on April 14, 1912, by historians, novelists, and film producers alike, but no account is as graphic or revealing as those from the people who were actually there. Through survivors' tales and contemporary newspaper reports from both sides of the Atlantic, here are eyewitness accounts full of details that range from poignant to humorous, stage by stage from the liner's glorious launch in Belfast to the somber sea burial services of those who perished on her first and only voyage. In this book, the voices of the survivors share their own stories, as well as the official records, press reports, and investigations into what went wrong that night.

On April 15, 1912, the HMS Titanic sank, killing 1,517 people and leaving the rest clinging to debris in the frozen waters of the North Atlantic awaiting rescue. Here, historian Nick Barratt tells the ship's full story, starting from its original conception and design by owners and naval architects at the White Star Line through its construction at the shipyards in Belfast. Lost Voices From the Titanic offers tales of incredible folly and unimaginable courage—the aspirations of the owners, the efforts of the crew, and of course, the eyewitness accounts from those lucky enough to survive. In narrating the definitive history of the famous ship, Barratt draws from never before seen archive material and eyewitness accounts by participants at every stage of the Titanic's life. These long-lost voices bring new life to those heartbreaking moments on the fateful Sunday night when families were torn apart and the legend of the Titanic was cemented in our collective imagination.

There were over 700 survivors of the Titanic disaster and their horrific experience has captivated readers and moviegoers for almost 100 years. But what was it actually like for a woman to say goodbye to her husband? For a mother to leave her teenage sons? For the unlucky many who found themselves in the freezing Atlantic waters? 'Titanic Voices' is a comprehensive collection of Titanic survivors' accounts, and includes many unpublished and long-forgotten accounts, unabridged, together with an authoritative editorial commentary. It also includes substantial accounts from third class and female survivors.

George and Catherine Stewart share not only the burden of Catherine's heart disease, which could cause her death at any time, but the memory of Jerome Martell, her first husband and George's closest friend. Martel, a brilliant doctor passionately concerned with social justice, is presumed to have died in a Nazi prison camp. His sudden return to Montreal precipitates the central crisis of the novel. Hugh MacLennan takes the reader into the lives of his three characters and back into the world of Montreal in the thirties, when politics could send an idealist across the world to Spain, France, Auschwitz, Russia, and China before his return home.

An authentic account of one of the most pivotal battles of World War Two. The World War Two invasion known as D-Day was one of the largest military endeavours in history. It involved years of planning, total secrecy and not only soldiers but also sailors, paratroopers and many specialists. Acclaimed author Deborah Hopkinson weaves together the contributions of key players in D-Day in a masterful tapestry of official documents, personal narratives and archival photos to provide an action-packed and authentic account.

When the Nazis invaded Denmark on Tuesday, April 9, 1940, the people of this tiny country to the north of Germany awoke to a devastating surprise. The government of Denmark surrendered quietly, and the Danes were ordered to go about their daily lives as if nothing had changed. But everything had changed. Award-winning author Deborah Hopkinson traces the stories of the heroic young men and women who would not stand by as their country was occupied by a dangerous enemy. Rather, they fought back. Some were spies, passing tactical information to the British; some were saboteurs, who aimed to hamper and impede Nazi operations in Denmark; and 95% of the Jewish population of Denmark were survivors, rescued by their fellow

countrymen, who had the courage and conscience that drove them to act. With her talent for digging deep in her research and weaving real voices into her narratives, Hopkinson reveals the thrilling truth behind one of WWII's most daring resistance movements.

This is one of the first and most famous books published after the sinking of the Titanic, and contains much material from contemporary newspaper accounts. It was written by Logan Howard-Smith (under the pen name of Logan Marshall), an editor who specialized in the rapid publication of books about current events. For this book, his crowning achievement, the initial print run was for no fewer than 110,000 copies. The publisher achieved this by running 11 presses simultaneously, and the books were then sold door-to-door across America for a dollar apiece. Although Marshall's own description of the sinking is melodramatic and sensationalistic, the many verbatim interviews with survivors of the disaster have stood the test of time, and are often cited in Titanic literature.
