Trees, maps, and theorems, by Jean-luc Duomont. I'm currently reading Trees, maps, and theorems: Effective communication for rational minds, a new book by Jean-luc Doumont. The reason I wanted to read the book is for Jean-luc's expertise in visual design and page layout, because I thought it could help me design better quick reference guides.

The ATI is a map of the oldest and most important ancient and veteran trees in the UK. It doesn't include every tree - it's a living database and we rely on volunteers and members of the public adding to it. Identifying where these special trees are takes us a step closer to giving them the care and protection they need.
