Opel Frontera is a rebadged version of the Isuzu MU Wizard. The acronym "MU" is short for "Mysterious Utility". Isuzu manufactured several variations to the MU and its derivatives for sale in other countries. It was originally built in 1989. Frontera is a long wheel base, five-door vehicle. It was known globally, like in North America, in Europe, Australia, and even in Asia. The Frontera has ...

and training/recruitment and relationship to the British education system. Government statistics were analyzed, and case studies were conducted of five very different companies, including a small franchise of a major auto maker, a large dealership/service center, a vehicle electrical system repairer that is 1 of 700 outlets, and a family business. Each case study included a profile of the company, its personnel management and vocational policies, and its provisions for continuing/ongoing training. The study concluded that the British automotive industry

exemplified the demise of the country's vocational and education training system. Although the recent national system of vocational qualifications and other initiatives have promised to improve the level and consistency of training provision in the automotive industry, the main issue now facing individual dealerships remains that of finding the resources to invest in the level of training required to produce the skilled employees demanded by vehicle manufacturers, government standards, and market pressures. (Twenty-two tables are included.) (MN)

The automobile industry is evolving rapidly on a worldwide basis.

Manufacturers are merging, component design and manufacture are now frequently outsourced instead of being created in-house, brands are changing and the giant auto makers are expanding deeper into providing financial services to car buyers. The skyrocketing price of gas spurs developments in hybrid technology and clean diesel, as manufacturers look for ways to improve fuel efficiency. Meanwhile, all of the biggest, most successful firms have become

totally global in nature. Plunkett's Automobile Industry Almanac will be your complete guide to this immense, fascinating industry. On the car dealership side, giant, nationwide holding companies have acquired the best dealers in major markets. Even the used car business is being taken over by national chains. E-commerce is having profound effects on the car industry. Consumers use the Internet to become better informed before making a purchase. Online sites like Autobytel steer millions of car buyers toward specific dealers while the same sites deliver

competing bids for cars, insurance and financing in a manner that lowers costs and improves satisfaction among consumers. Meanwhile, auto makers are using the latest in e-commerce methods to manage their supply chains and replenish their inventories. This exciting new book (which includes a database on CD-ROM) is a complete reference tool for everything you need to know about the car, truck and specialty vehicles business, including: Automotive industry trends and market research; Mergers, acquisitions, globalization; Automobile manufacturers; Truck makers; Makers of

Sketching is more popular than ever, but busy lives leave almost no room for sitting down with a pad and pen, and practicing. Many people give up on their potential hobby (and

artistic outlet) because they feel they just don't have the time to lay the groundwork. Here's a secret though: you do have time each day to practice, you just need to incorporate sketching into your daily life. Sketch Now, Think Later covers the tools, techniques and tips that author and Urban Sketching Correspondent of Boston Mike Daikubara has developed in his more than 15 years as a practicing artist, and will show you how to fully dive into any sketching situation with limited time and tools, and still be able to produce memorable, great looking, fun sketches!
