With *THE LEGAL ENVIRONMENT OF BUSINESS*, 13E readers can enjoy a practical introduction to the structure and function of the legal system from the perspective of the professional non-lawyer. While the authors note the system's strong legal heritage, the book emphasizes the nuts and bolts of basic legal rules that most significantly impact business today. This popular book adapts a traditional case focus to address the unique needs of future and current business students. Clear, concise coverage of a wide range of timely topics introduces key points of law using business-specific examples and realistic scenarios. The authors' readable style complements their extensive knowledge of domestic and international business to make this book a favorite among both professionals and learners new to the legal environment. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Recognized for accurate, relevant, and straightforward coverage, *BUSINESS LAW AND THE REGULATION OF BUSINESS*, 12E illustrates how legal concepts apply to common business situations. The book's comprehensive, yet succinct, approach provides a depth of coverage ideal for business success and CPA exam preparation without technical jargon. The text includes both landmark and recent cases with the facts and decision summarized for clarity, while the opinion is carefully edited to preserve the language of the court. More than 220 figures, tables, diagrams, concept reviews, and chapter summaries clarify concepts. All key legal terms are clearly defined and explained. In addition, each chapter is carefully organized with numerous illustrative hypothetical and case examples that relate content to real-life experiences. Numerous critical-thinking features further strengthen readers' analytical skills. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

*WEST'S LEGAL ENVIRONMENT OF BUSINESS* is the #1 text for this course--setting the standard by delivering comprehensive, authoritative, and cutting-edge coverage in an interesting and accessible format. Its recipe for success includes the same black letter law flavor as its #1 Business Law counterpart, *West's Business Law*, but with a more specific focus on current topics like ethics, government regulation, and administrative law. Updated and expanded teaching materials, including the new *West's Legal Environment NOW* online assignment administration tool, keep this text unmatched in its ability to support the key objectives of the course. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Finally the Truth about the Rise of the West Modernity developed only in the West—in Europe and North America. Nowhere else did science and democracy arise; nowhere else was slavery outlawed. Only Westerners invented chimneys, musical scores, telescopes, eyeglasses, pianos, electric lights, aspirin, and soap. The question is, Why? Unfortunately, that question has become so politically incorrect that most scholars avoid it. But acclaimed author Rodney Stark provides the answers in this sweeping new look at Western civilization. How the West Won demonstrates the primacy of uniquely Western ideas—among them the belief in free will, the commitment to the pursuit of knowledge, the notion that the universe functions according to rational rules that can be discovered, and the emphasis on human freedom and secure property rights. Taking readers on a thrilling journey from ancient Greece to the present, Stark challenges much of the received wisdom about Western history. How the West Won shows, for example: · Why the fall of Rome was the single most beneficial event in the rise of Western civilization · Why the “Dark Ages” never happened · Why the Crusades had nothing to do with grabbing loot or attacking the Muslim world unprovoked · Why there was no “Scientific Revolution” · Why scholars' recent efforts to dismiss the importance of battles are ridiculous: had the Greeks lost at the Battle of Marathon, we probably would never have heard of Plato or Aristotle Stark also debunks absurd fabrications that have flourished in the past few decades: that the Greeks stole their culture from Africa; that the West's “discoveries” were copied from the Chinese and Muslims; that Europe became rich by plundering the non-Western world. At the same time, he reveals the woeful inadequacy of recent attempts to attribute the rise of the West to purely material causes—favorable climates, abundant natural resources, guns and steel. How the West Won displays Rodney Stark's gifts for lively narrative history and making the latest scholarship accessible to all readers. This bold, insightful book will force you to rethink your understanding of the West and the birth of modernity—and to recognize that Western civilization really has set itself apart from other cultures.

Argues that western foreign aid efforts have done little to stem global poverty, citing how such organizations as the International Monetary Fund and the World Bank are not held accountable for ineffective practices that the author believes intrude into the inner workings of other countries. By the author of *The Elusive Quest for Growth*. 60,000 first printing.

The new Thirteenth Edition of the popular *Problems in Legal Ethics* has been thoroughly reviewed and completely updated. While retaining its popular problem-centered focus, the new edition integrates a significant number of new cases, as well as additional formal ethics opinions, new discussion problems, and new multiple-choice questions. Engaging, approachable, concise, and up-to-date, this practical new edition ensures that students understand the ethical responsibilities and potential ethical pitfalls encountered in the practice of law.
