Women in medieval society - The British Library

Women in Medieval Literature and Society. Throughout the Medieval period, women were viewed as second class citizens, and their needs always were an afterthought. They were either held to be completely deceitful, sexual, innocent, or incompetent. Therefore, women were mostly withheld from positions of power or speaking their voice; males made decisions for them, and their lives were dictated by the men that ran the society.

The main role of women in the Middle Ages was to run the household and raise children. The position of women in the medieval society was greatly influenced by the views of the Roman Catholic Church. Women were taught to be obedient to their husbands.

Women in the Middle Ages - World History Online

Medieval peasant women As with peasant men, the life of peasant women was difficult. Women at this level of society are usually considered to have had considerable gender equality, (though some scholars have argued that they had fundamentally the same subordinate status as women elsewhere in medieval society) but this often meant shared poverty.

Women in the Middle Ages - Wikipedia

Medieval society was essentially governed by patriarchy and women were subjected to male control regardless of their social class. In fact, the life of a peasant woman was enveloped by prohibition and general limitation imposed by the opposite sex. Women had to submit first to their father or to the male breadwinner of the house.

Medieval Women Facts, Worksheets, Conditions, Figures ...

Geoffrey Chaucer's Canterbury Tales give an illuminating picture of many of the different people who made up medieval society, although these portraits are limited mainly to the middle classes. The Wife of Bath is one particularly vibrant character within the Tales and a few years later a real-world equivalent, Margery Kempe , showed in her autobiography that women had an important part in medieval society.

English society - Wikipedia

In late medieval and early modern London, some women participated in the market economy as pawnbrokers, catering to the poorest sections of society, including newly arrived migrants. Women were, more often, borrowers in pawning agreements. All in all, McIntosh creates a compelling picture of women's roles in low level credit arrangements.
